THE STORY OF DONALD THUMB

by scott hot

ABOUT THIS BOOK

I don't want to tell you how to raise your kids but you might not want to buy this book for them. It's really a bleak little thing.

This book is probably better suited for adults with some disposable income and appropriately cynical teenagers.

The basic idea came to me in a dream and the next day I wrote the whole thing out. The drawings took much longer.

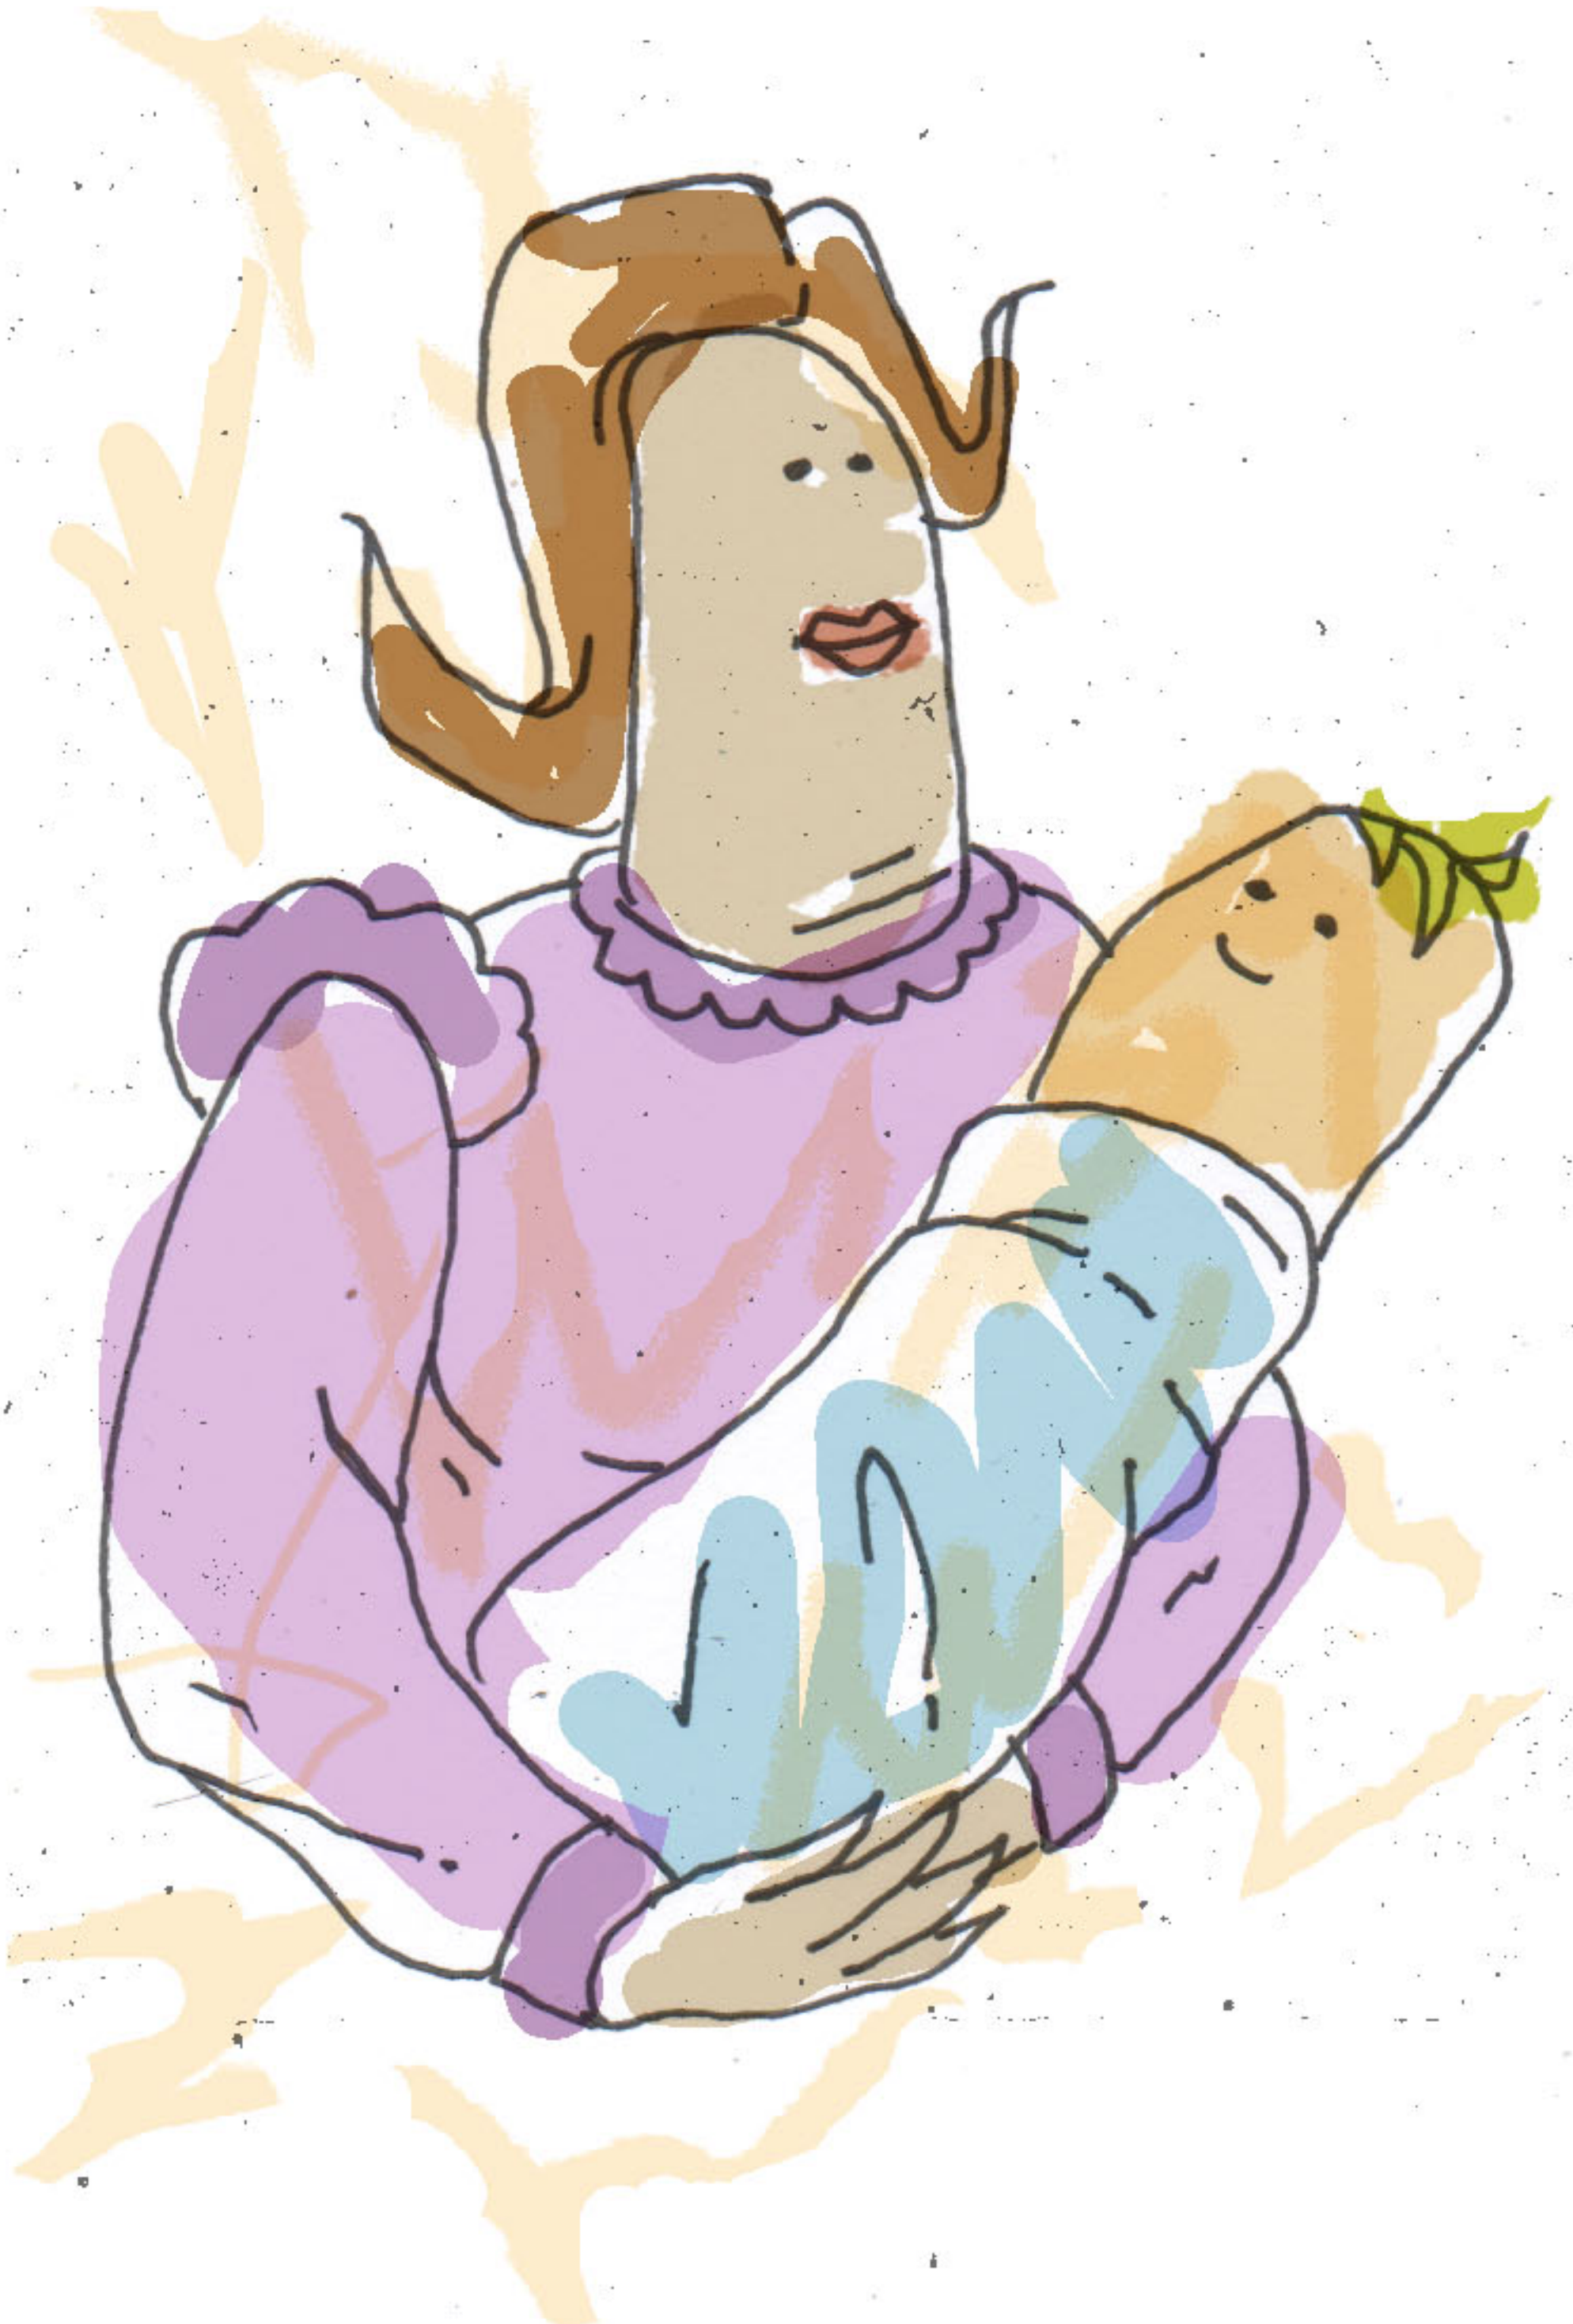
I hope you like the story but don't find yourself identifying with it too much.

Also if life is getting you down, try to listen to more happy songs. It helps somewhat.

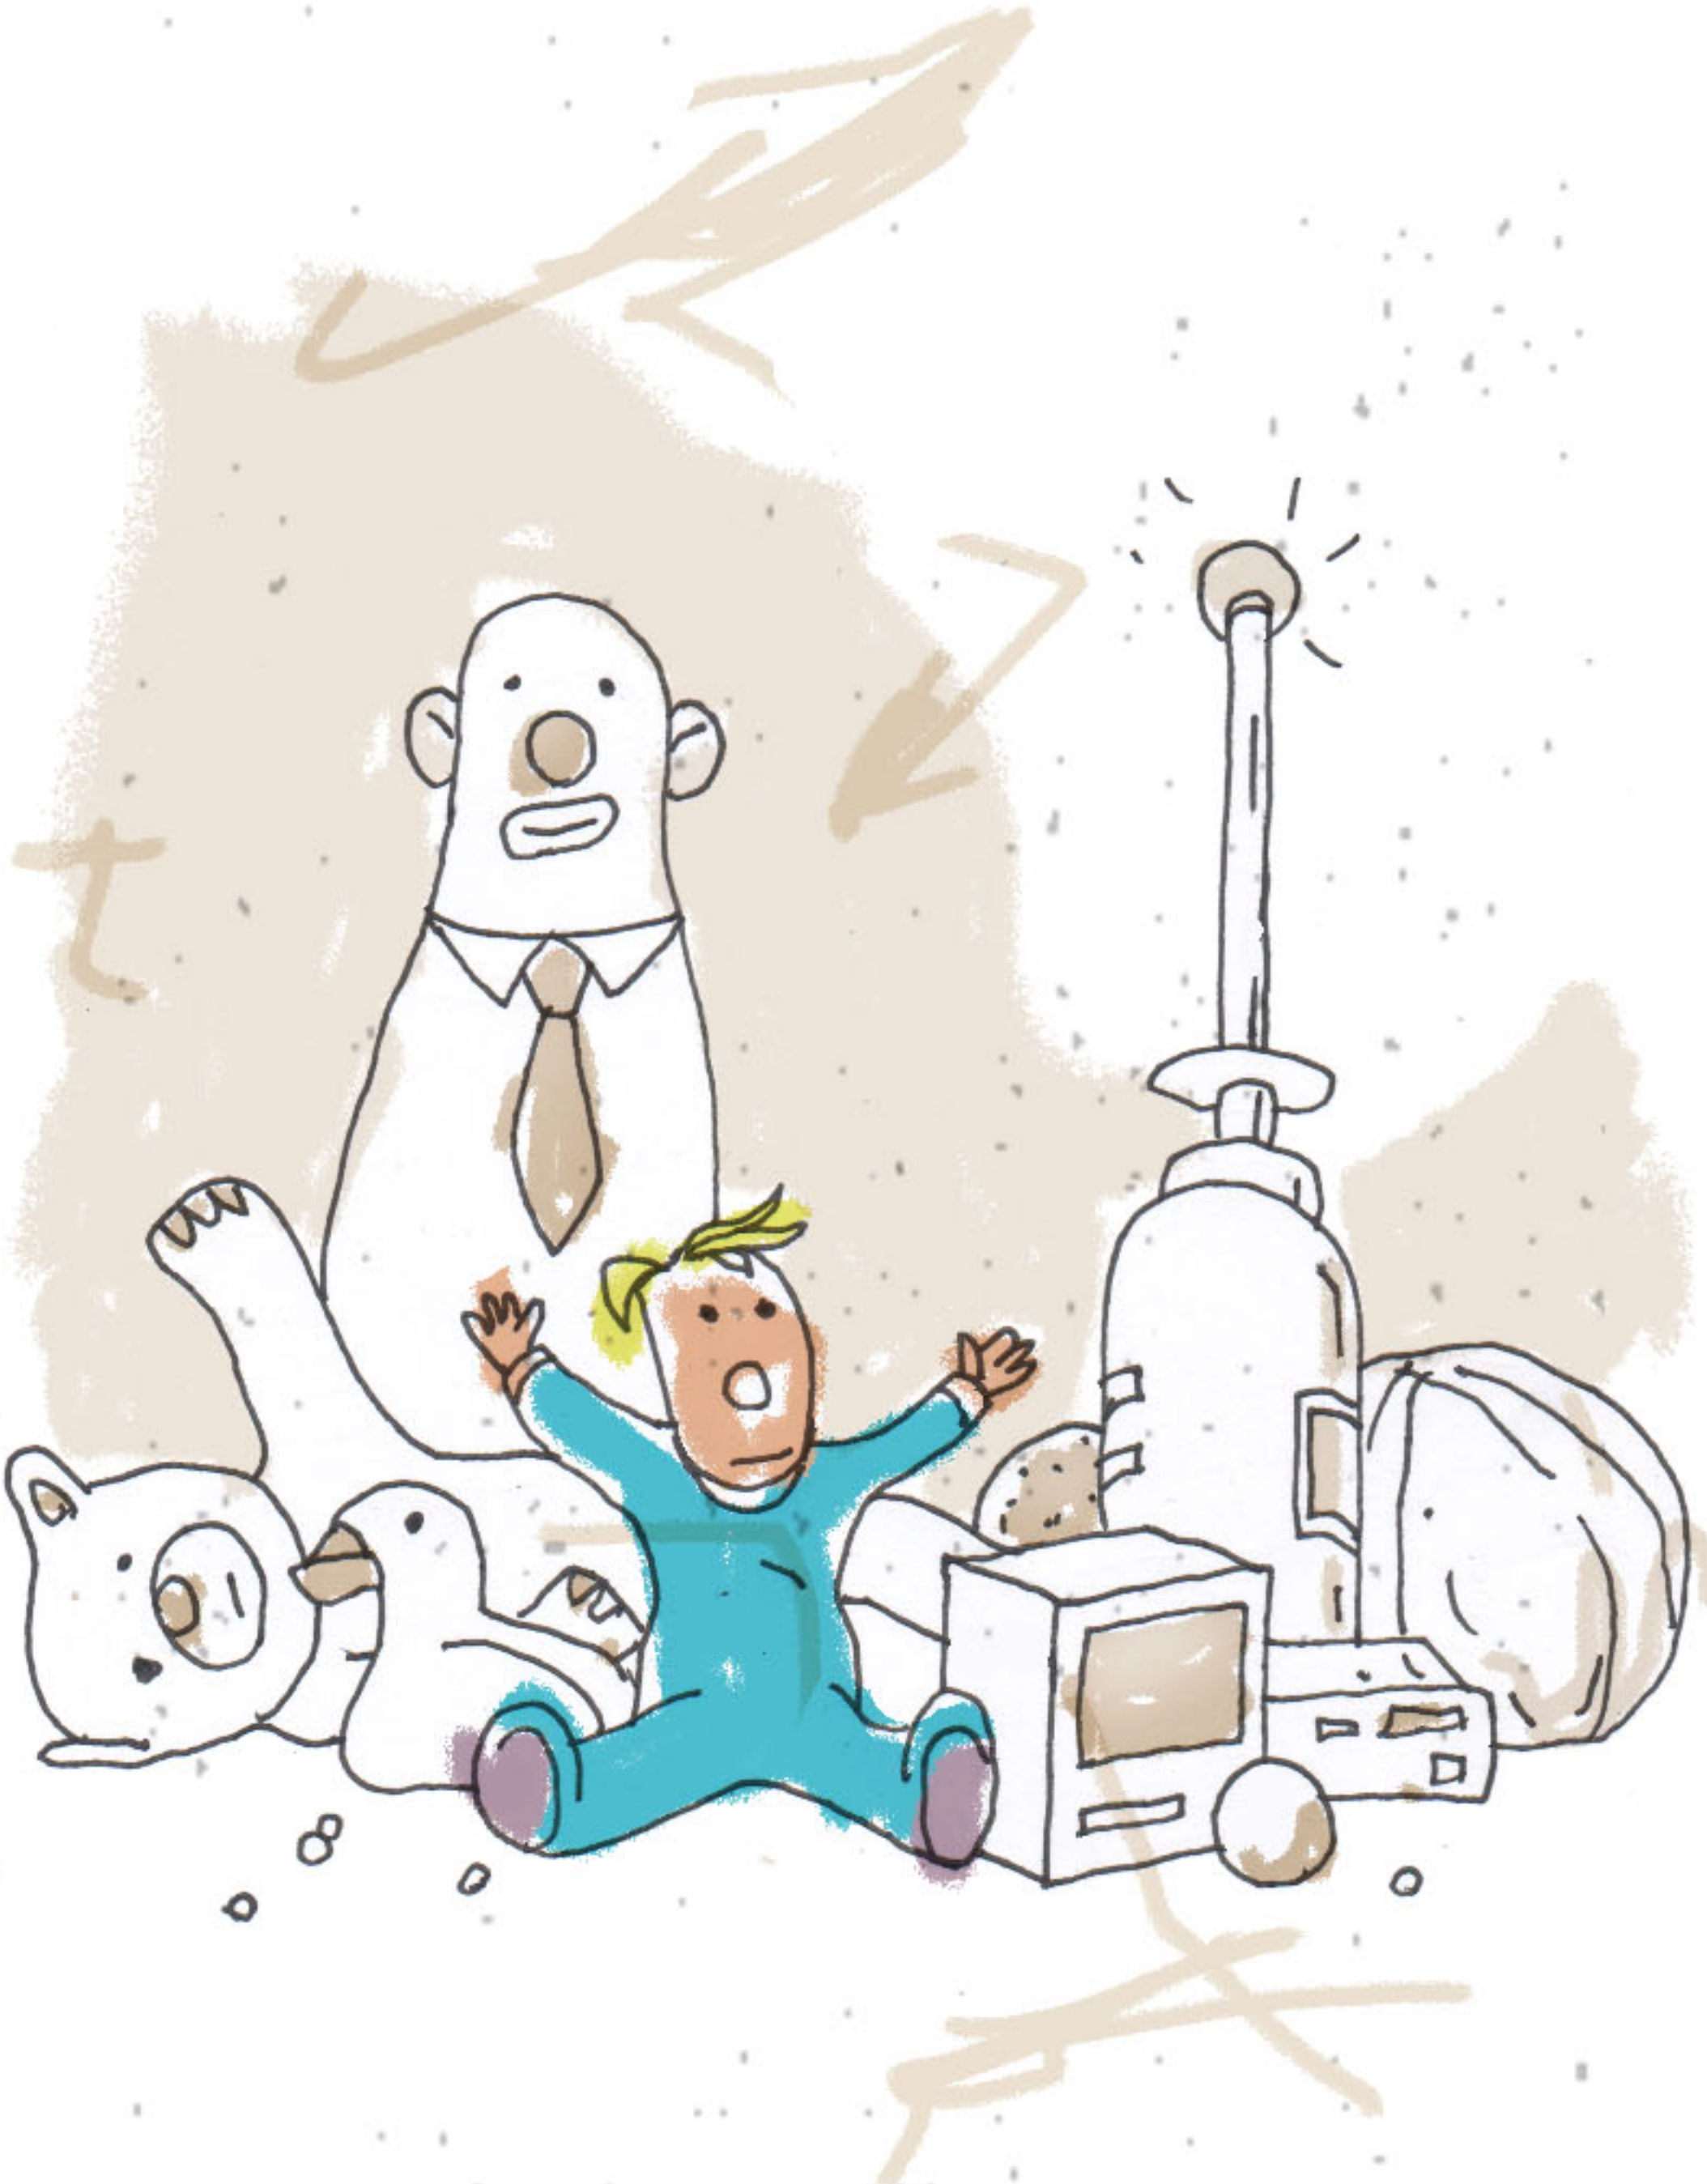
Thanks for your support,

Scott.

THE STORY OF DONALD THUMB



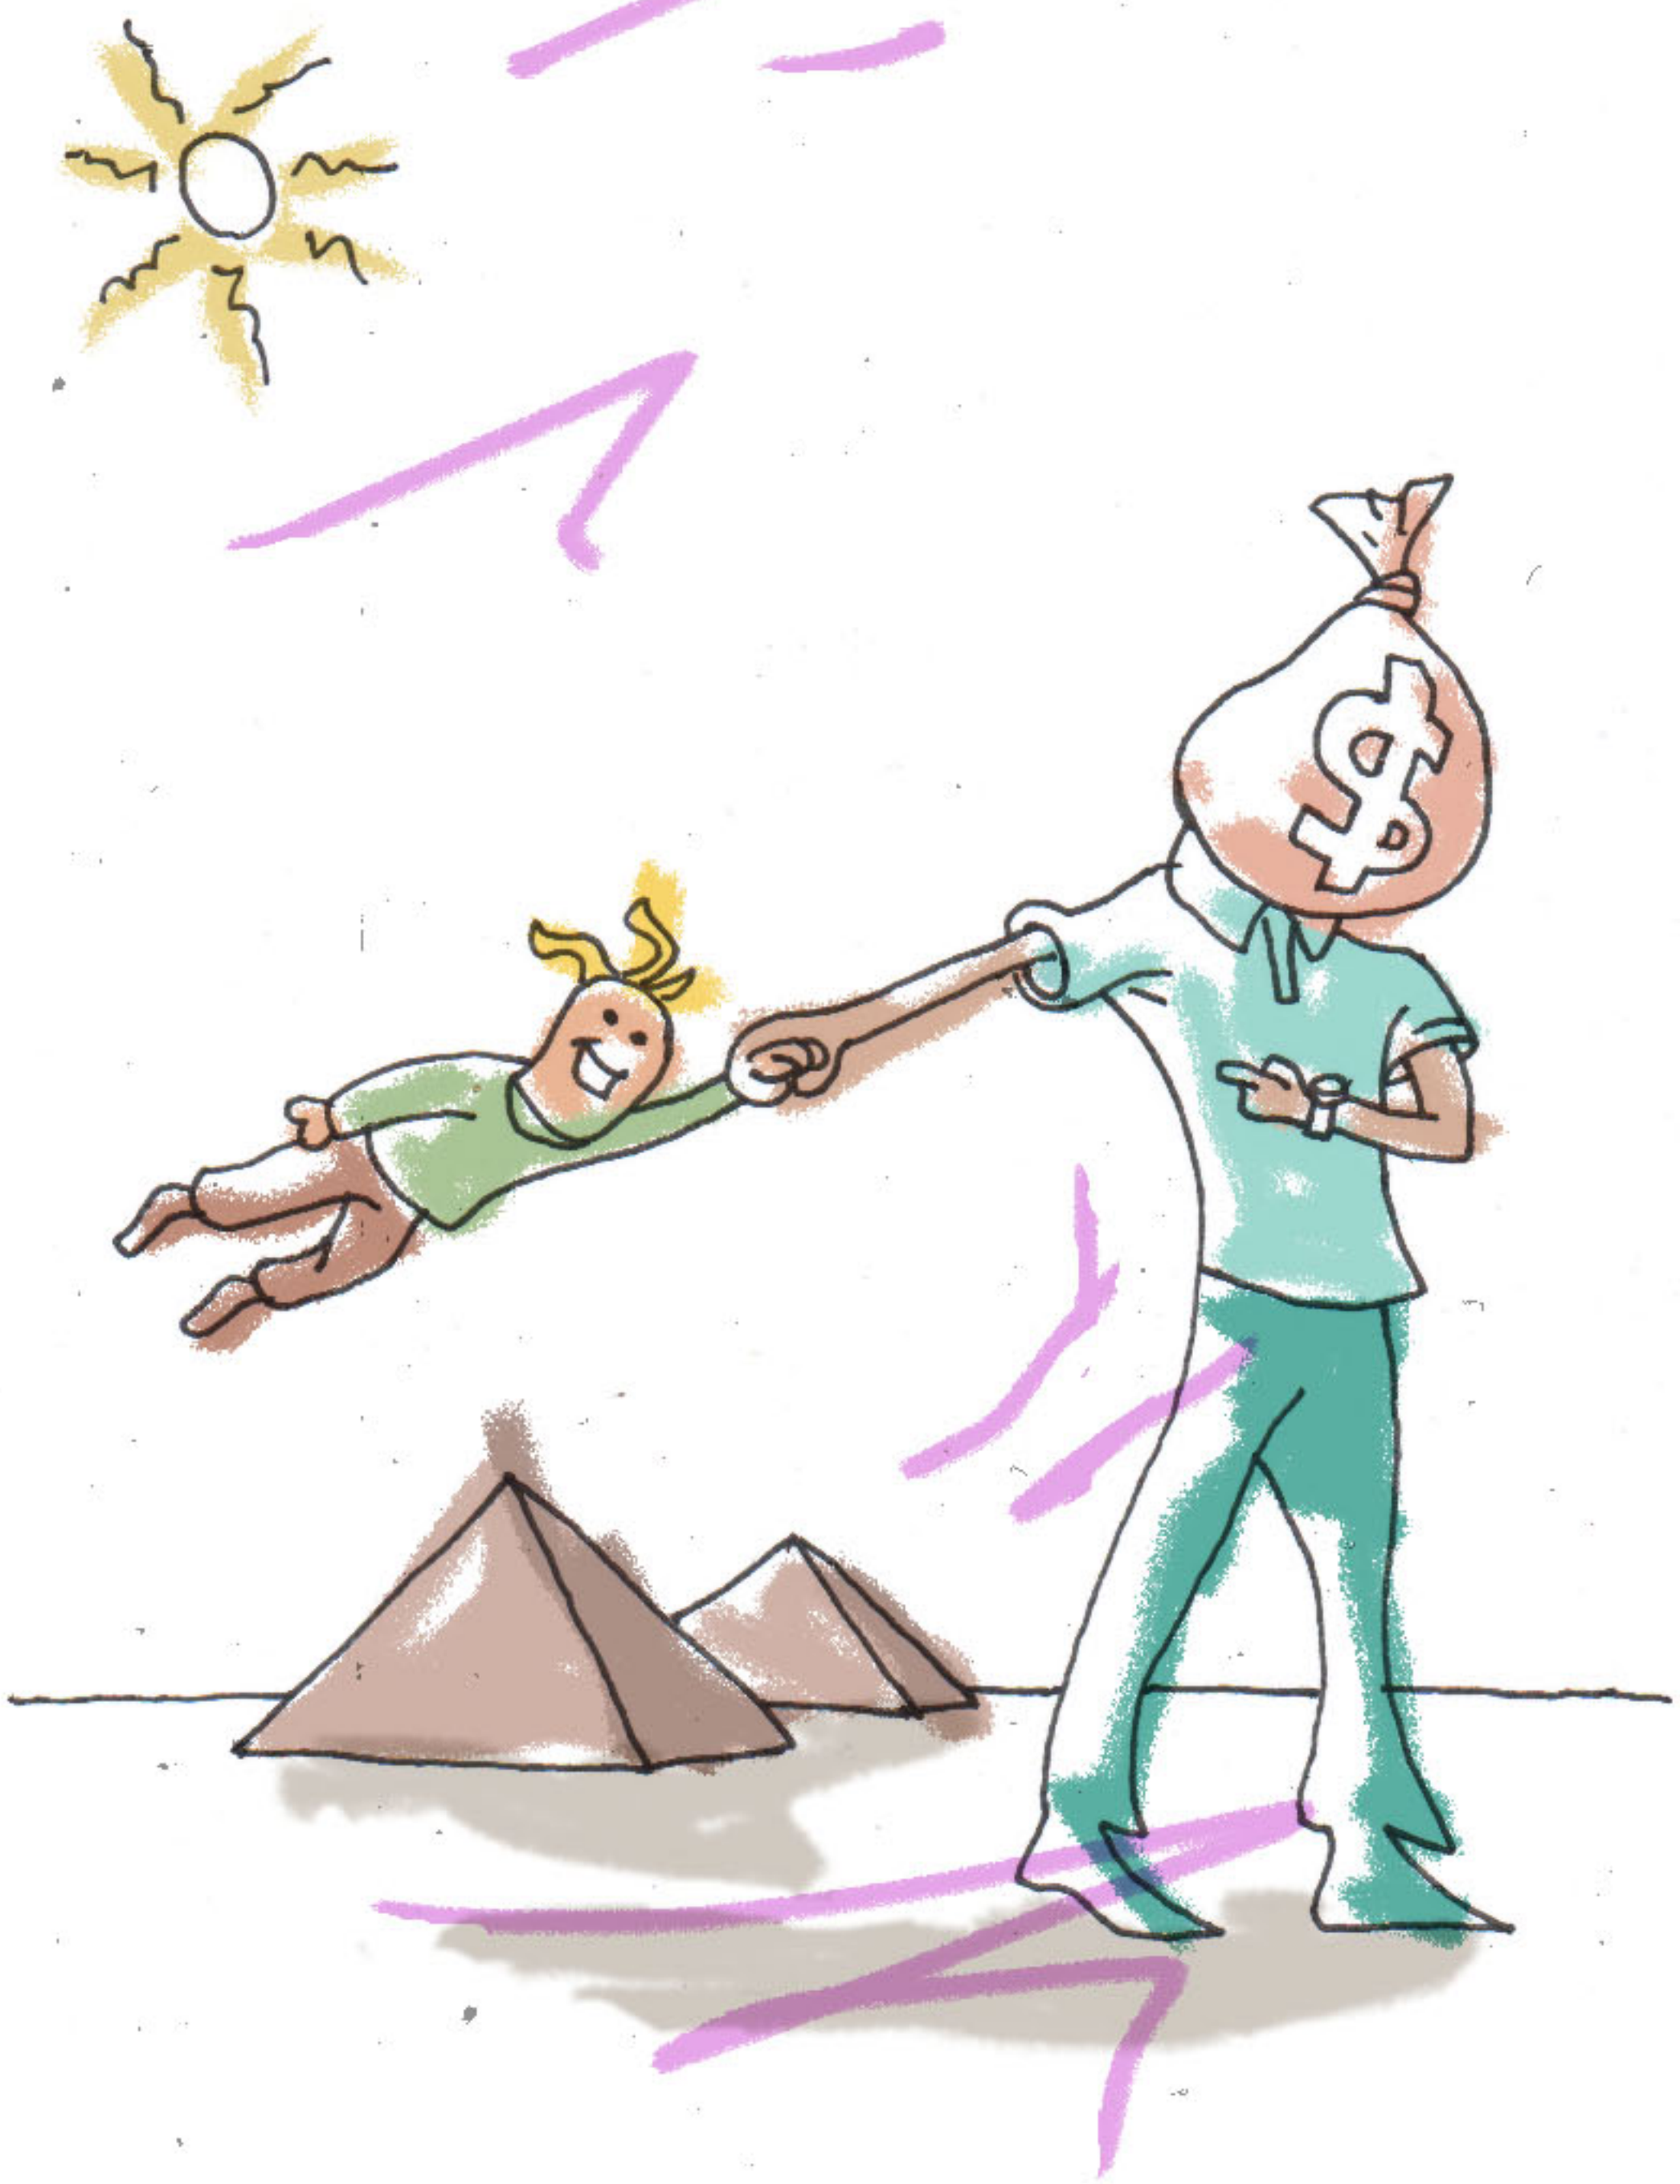
Once upon a time there was a little thumb.



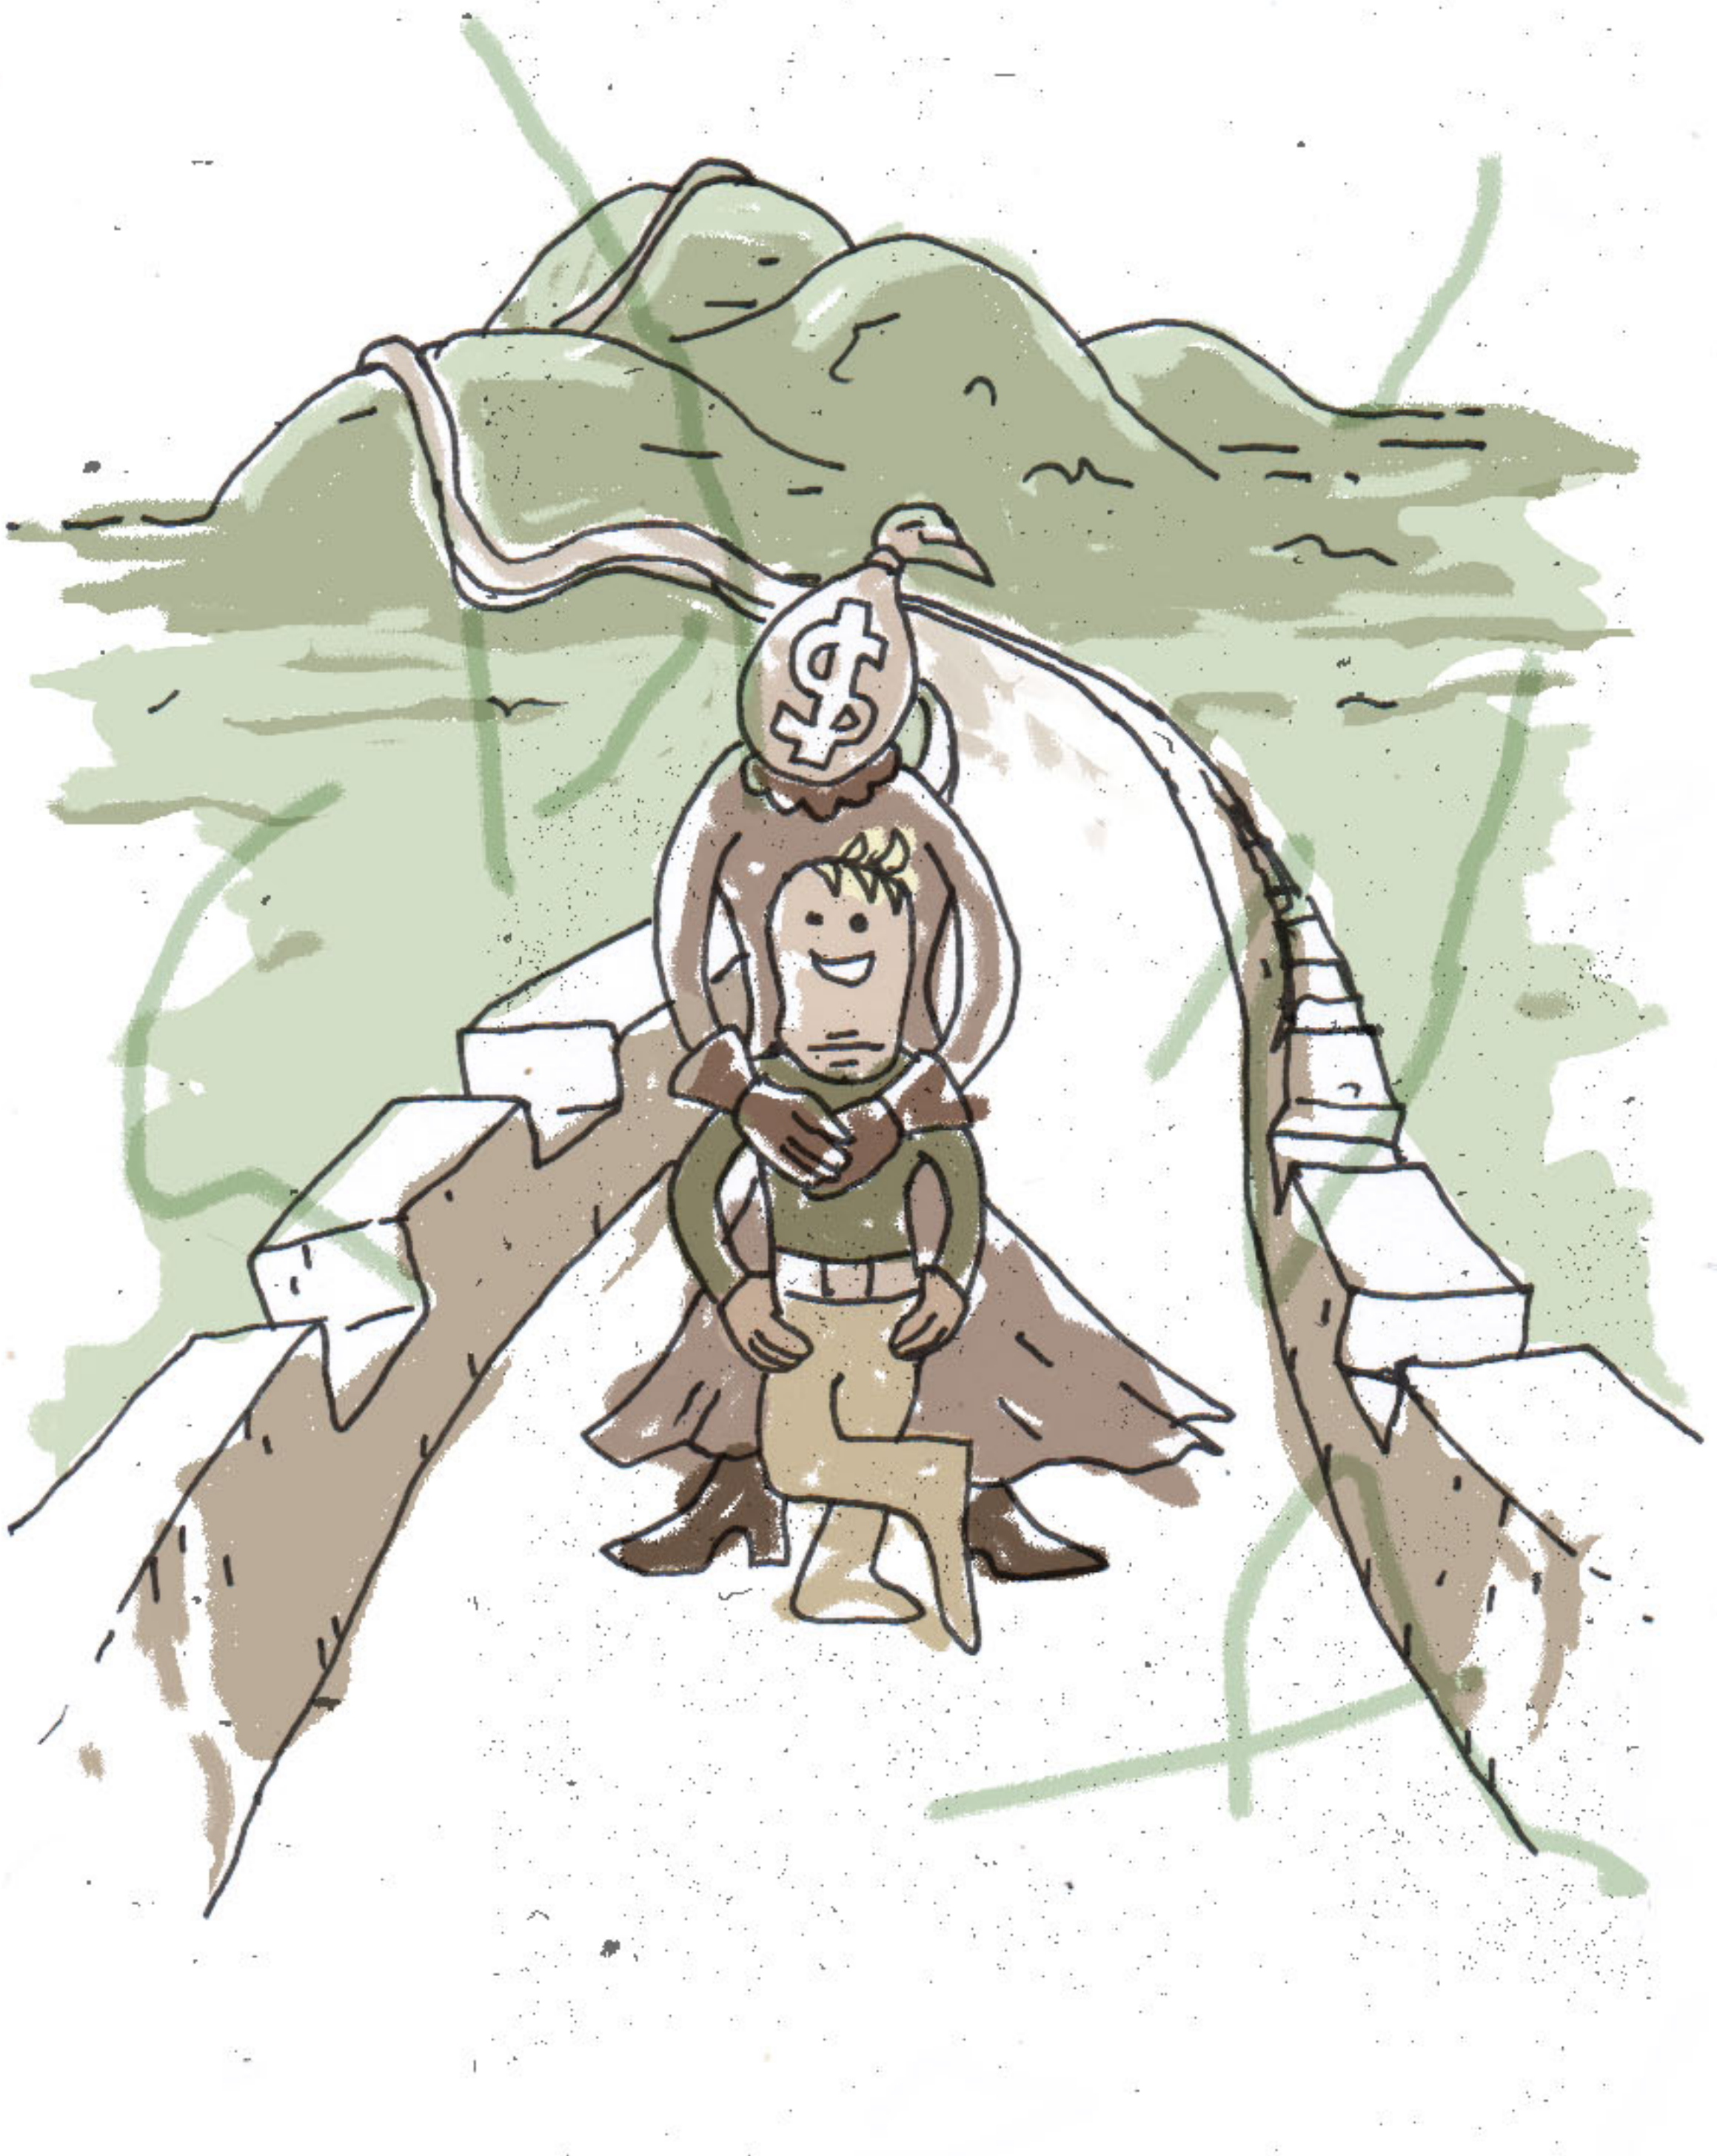
He had the best toys.

He lived in a huge mansion.

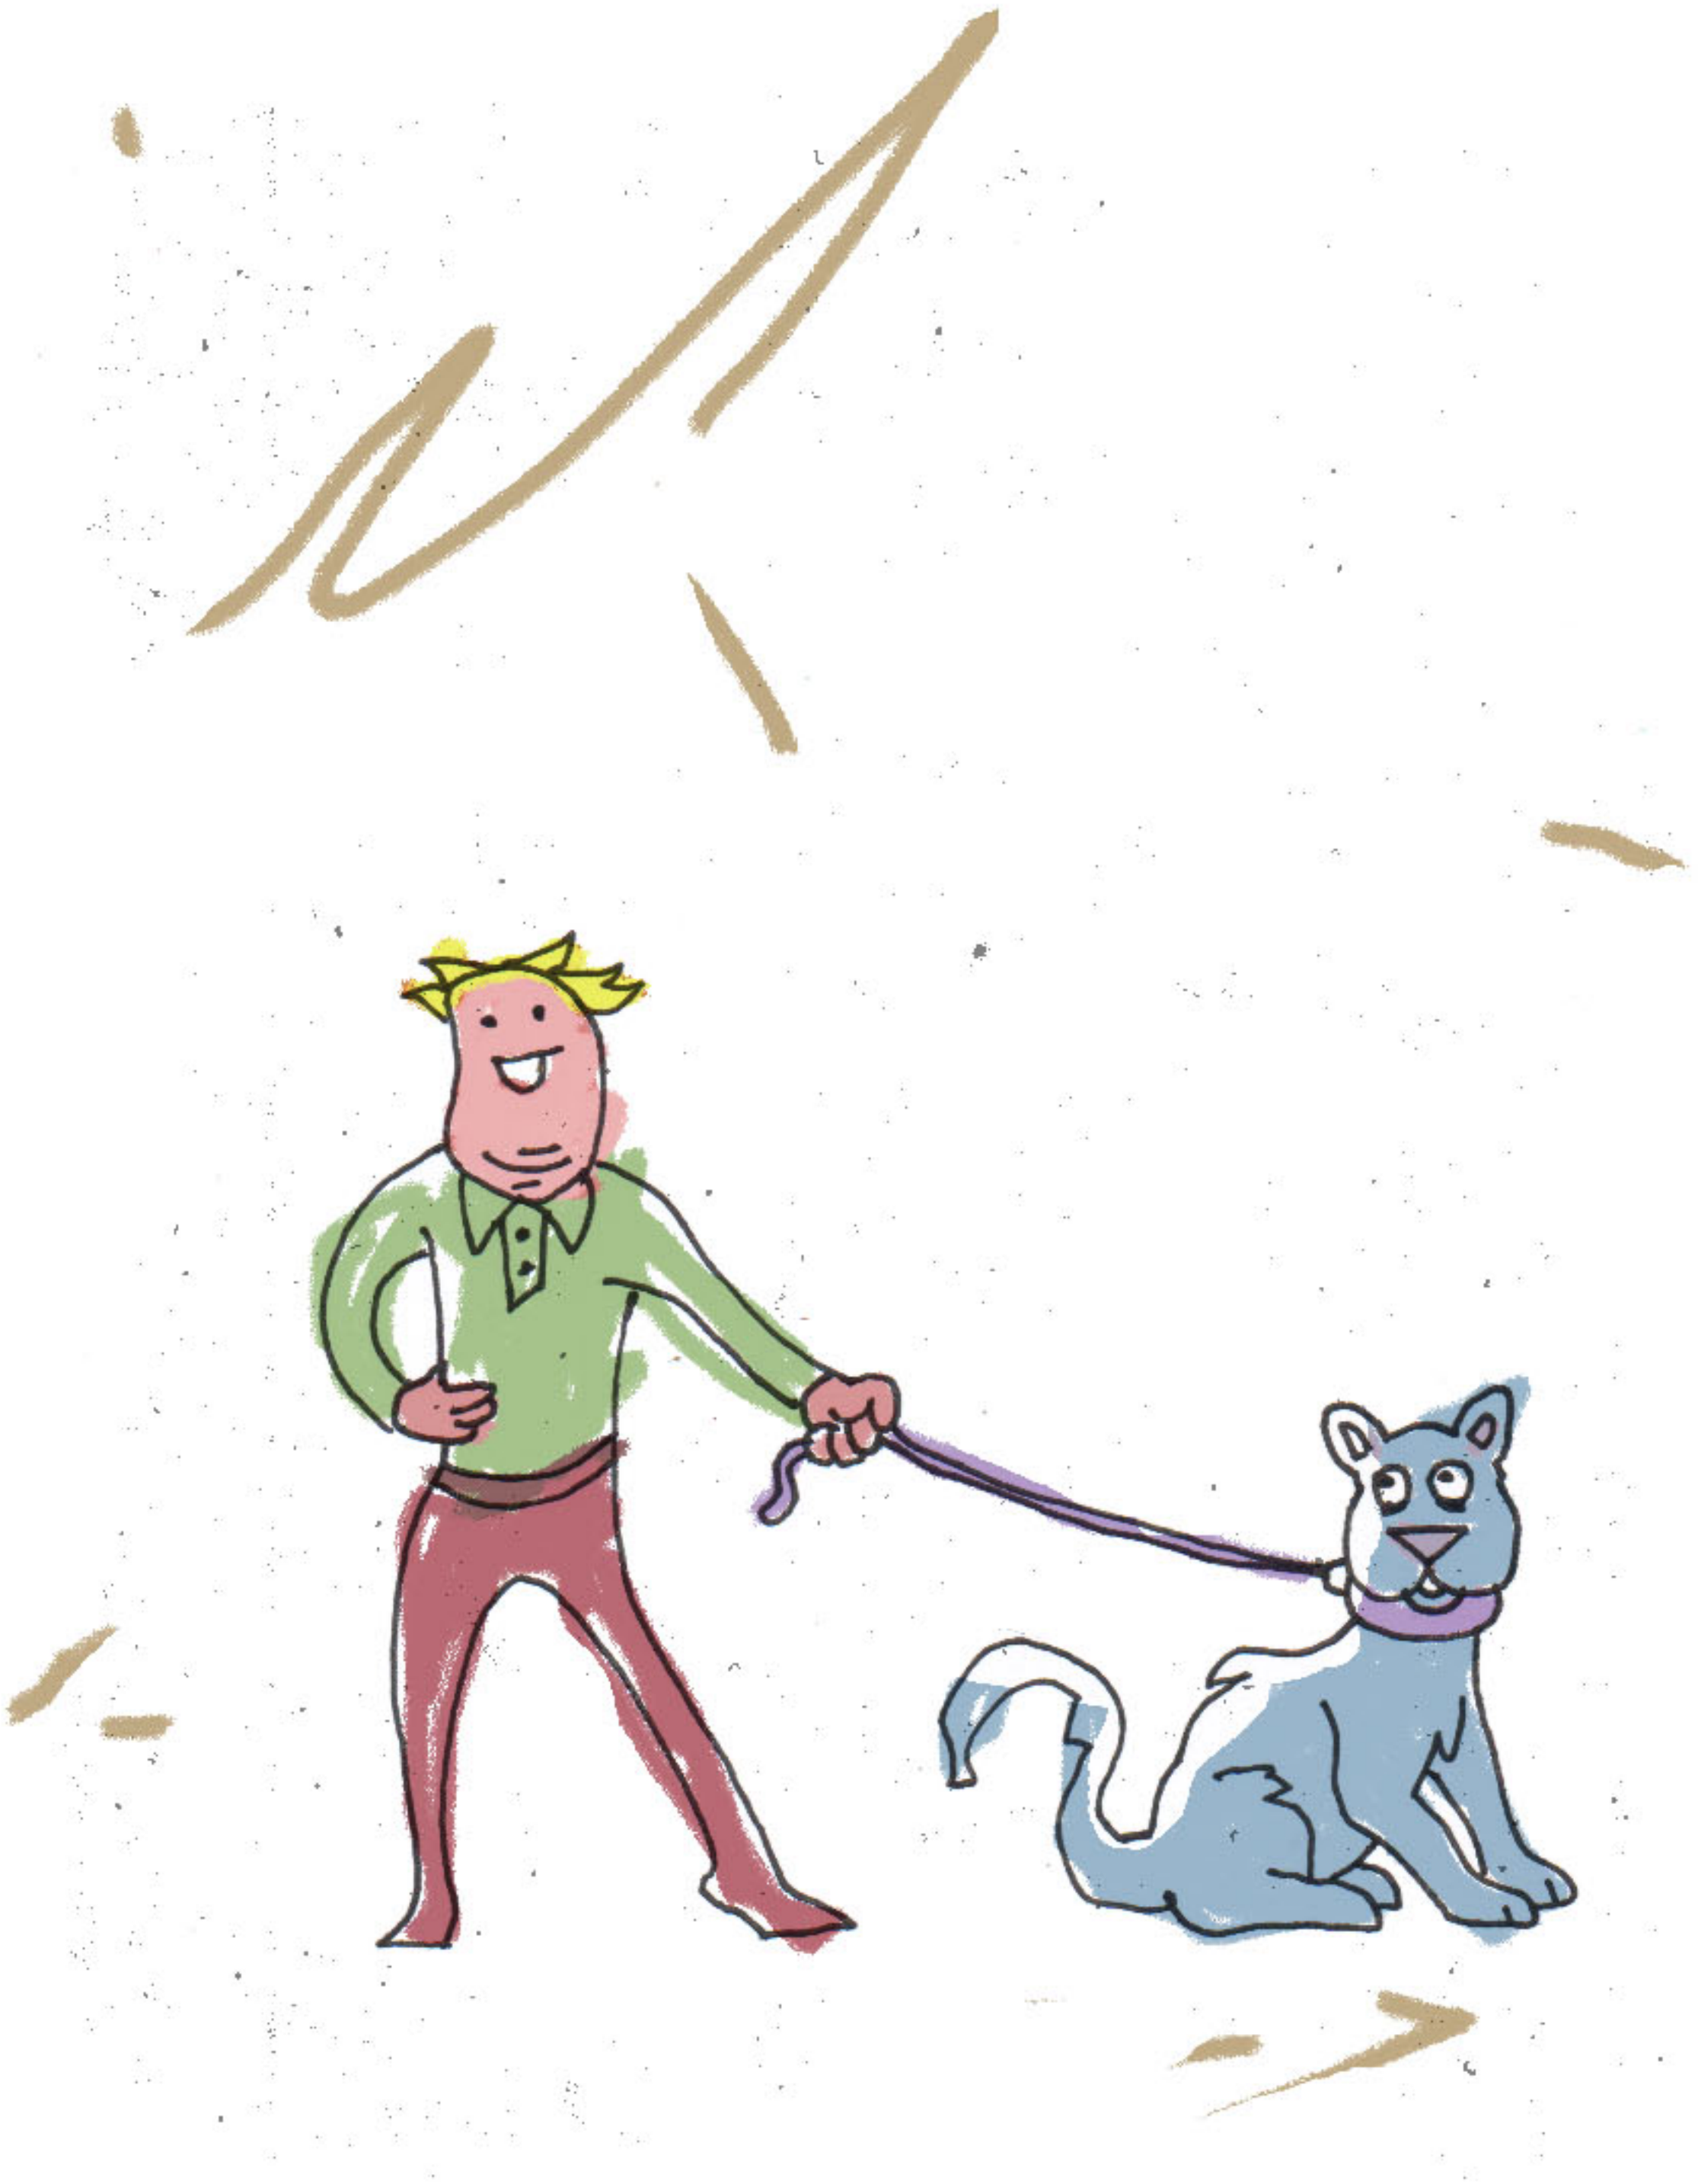
His parents were rich.



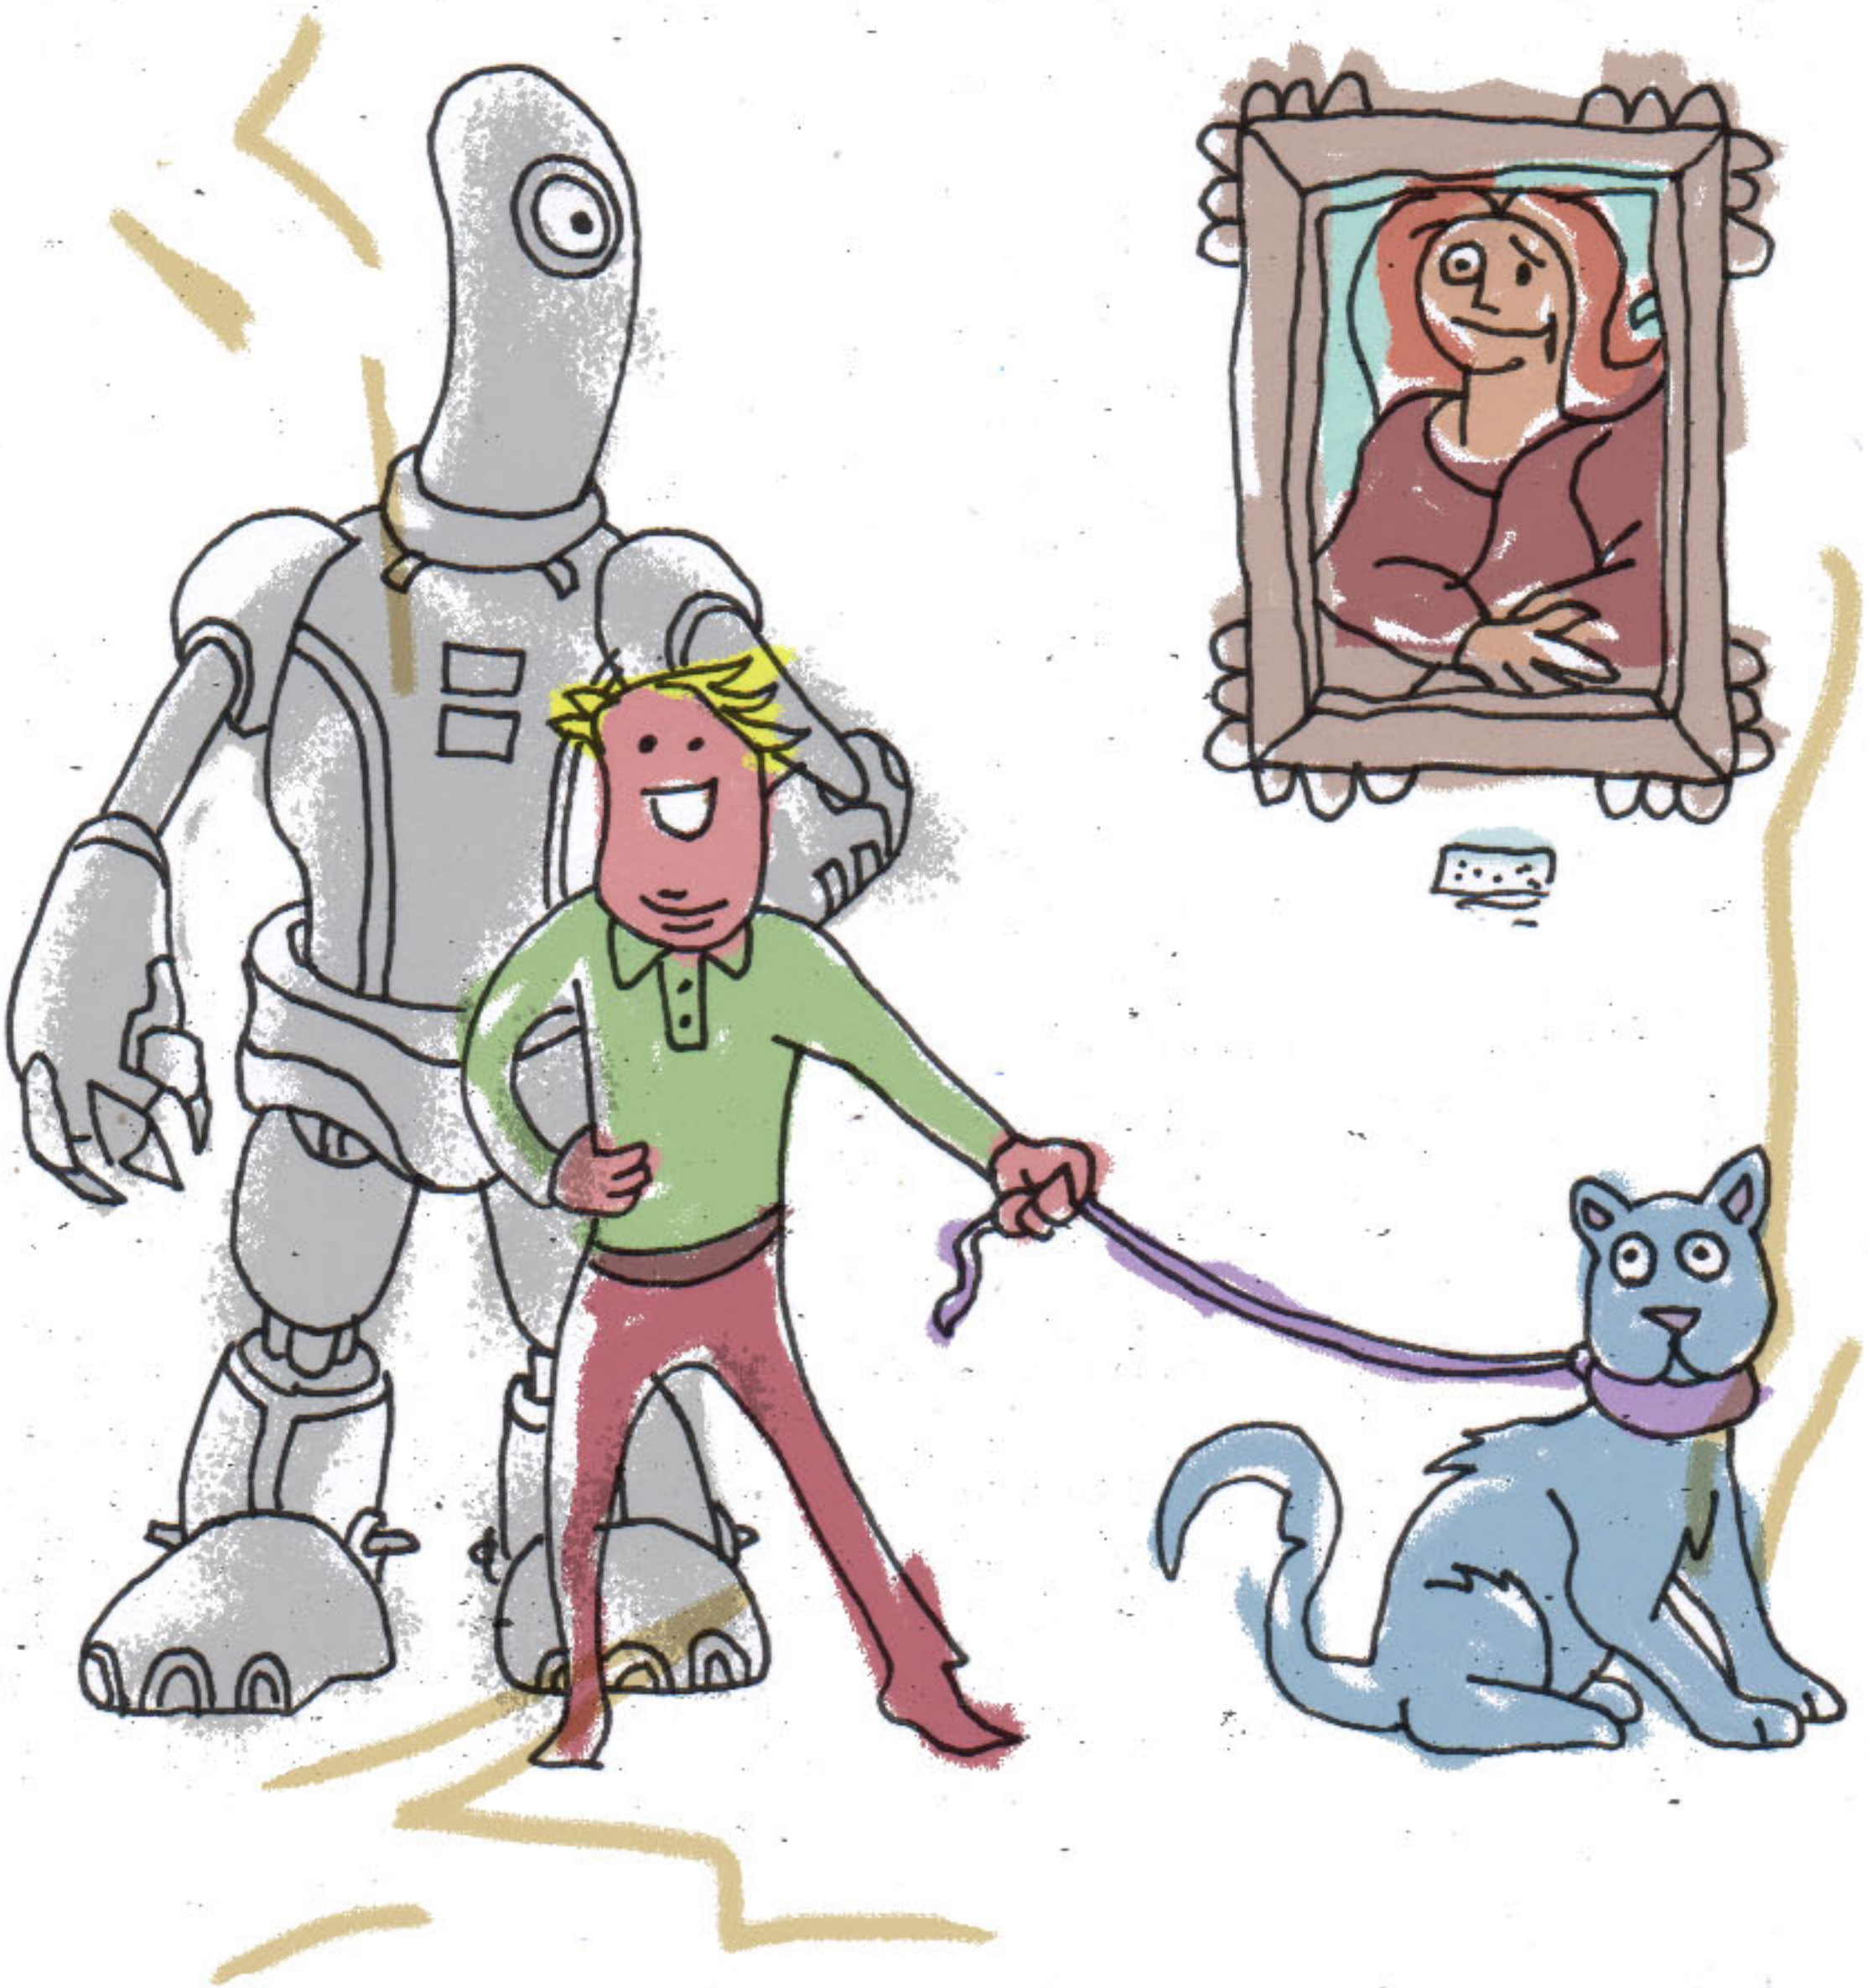
And they took him everywhere.



Even to China once.

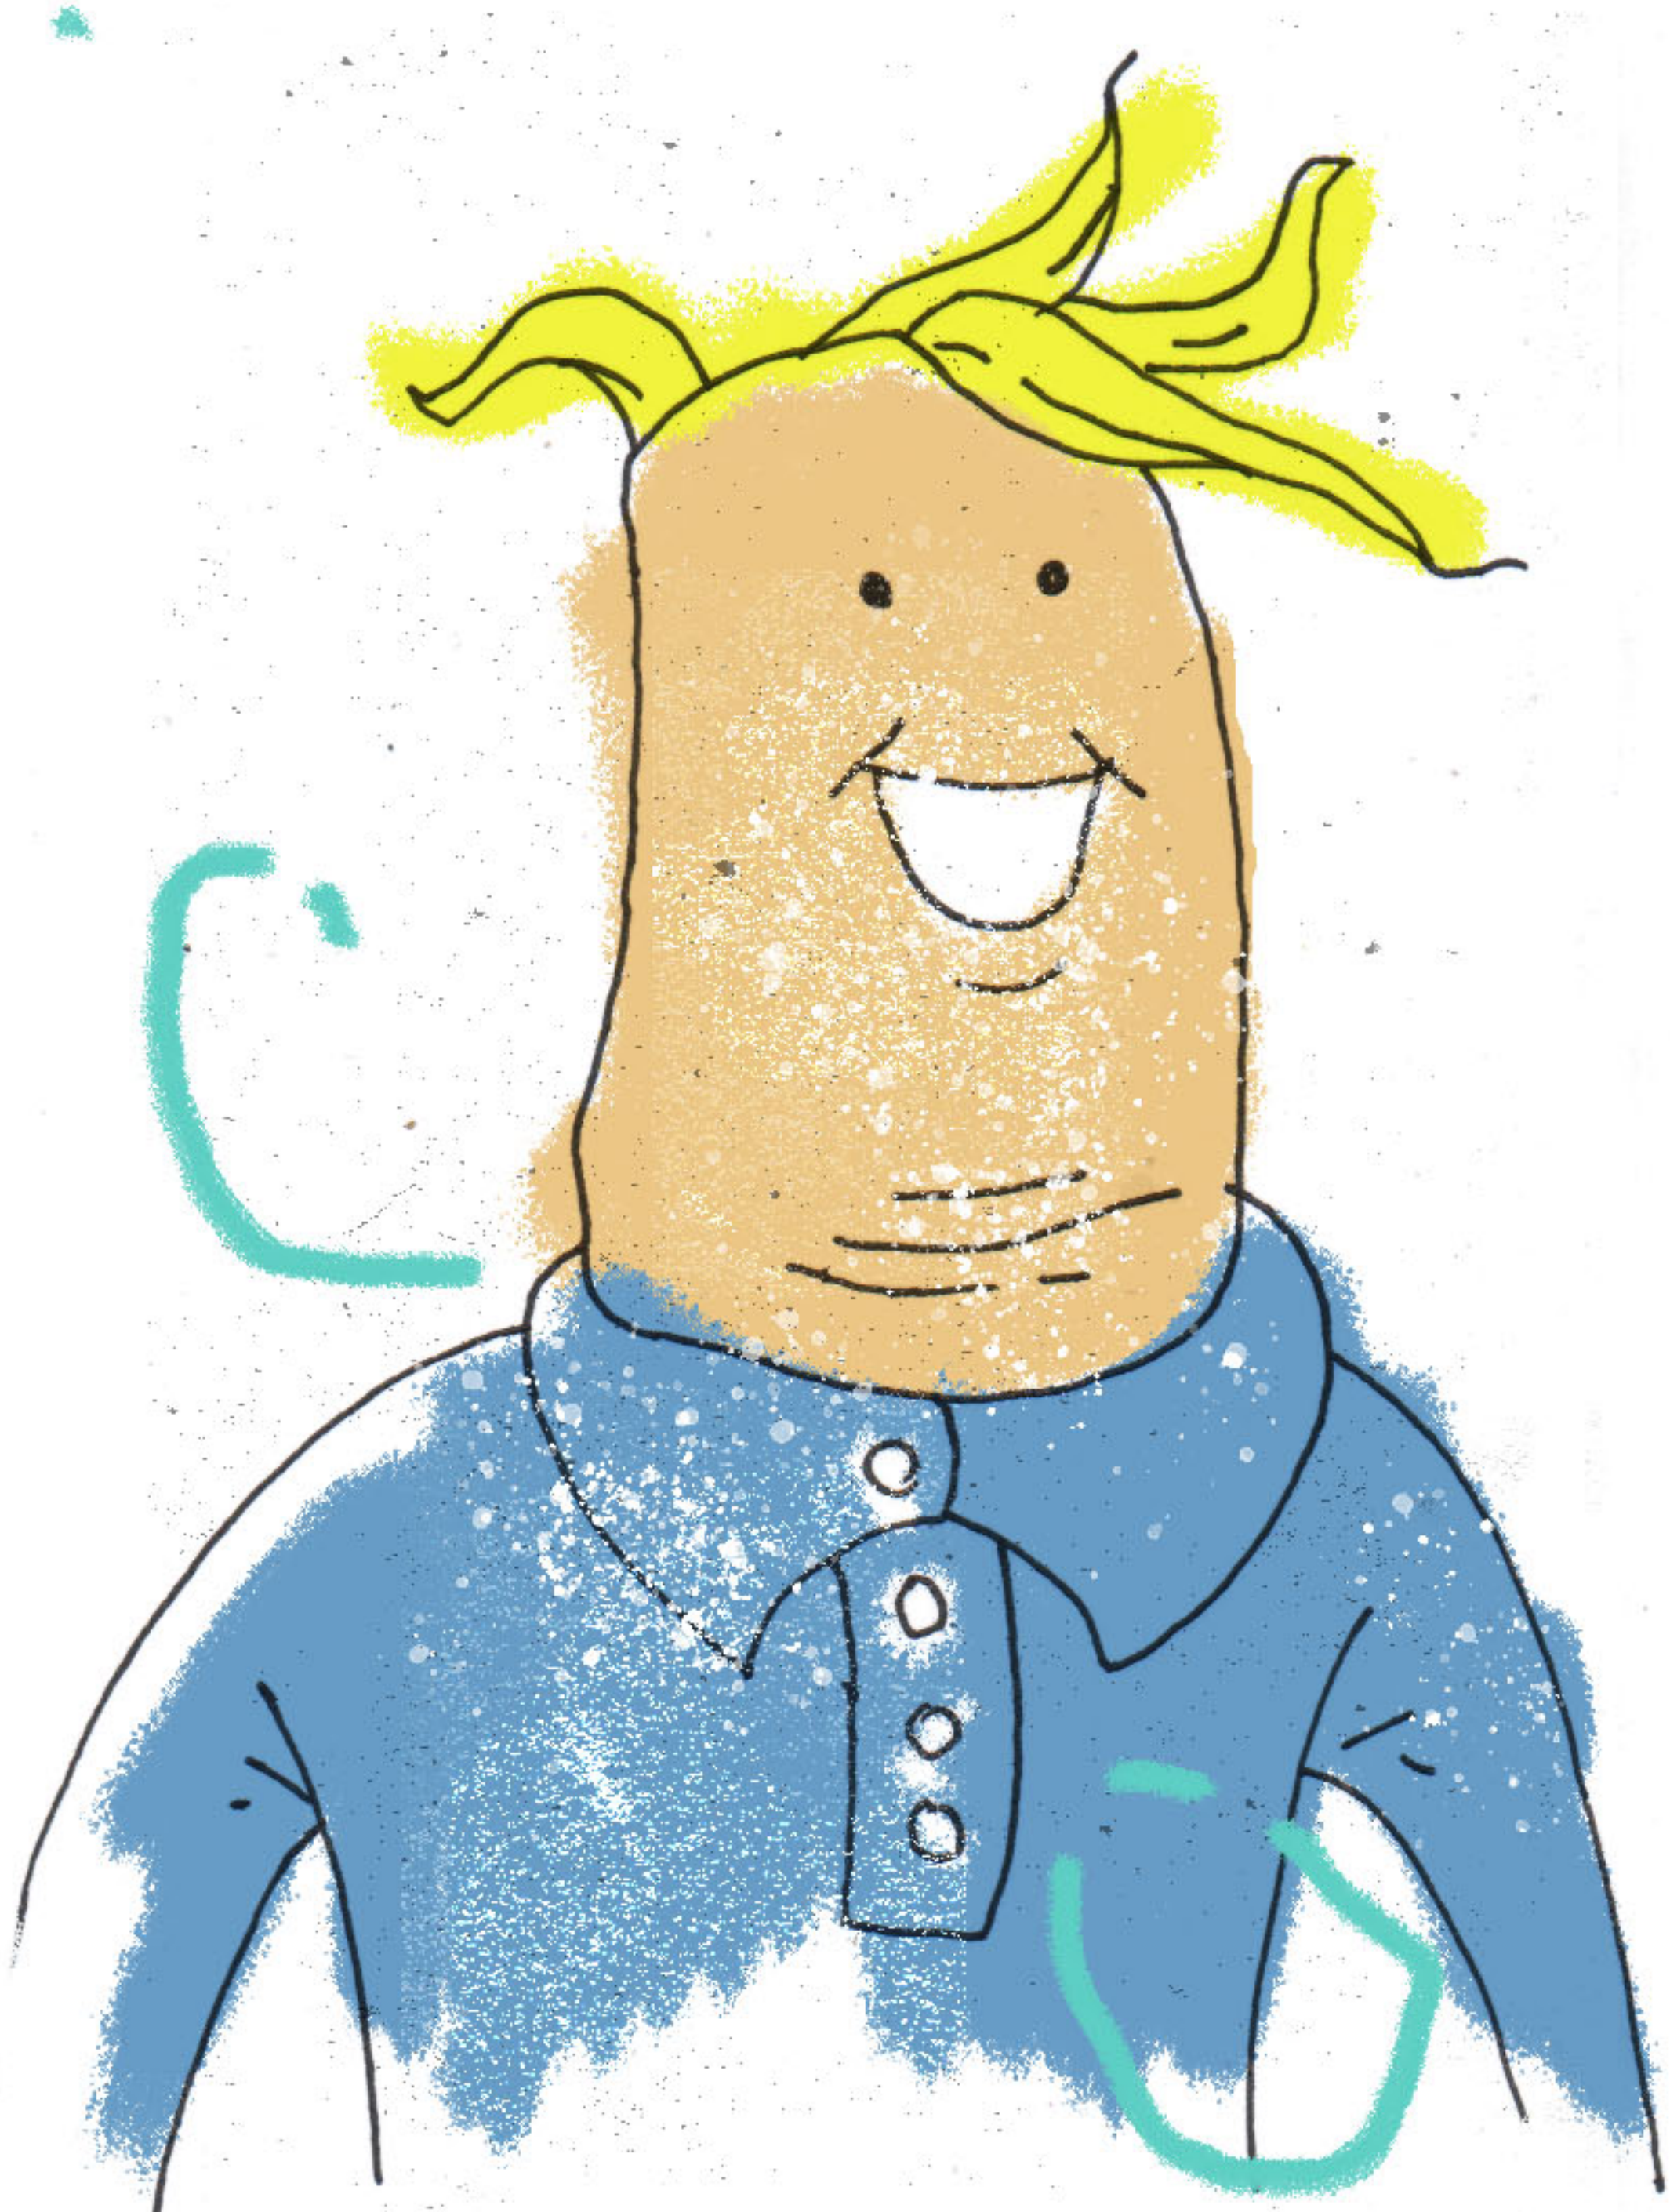


He could have anything he asked for.

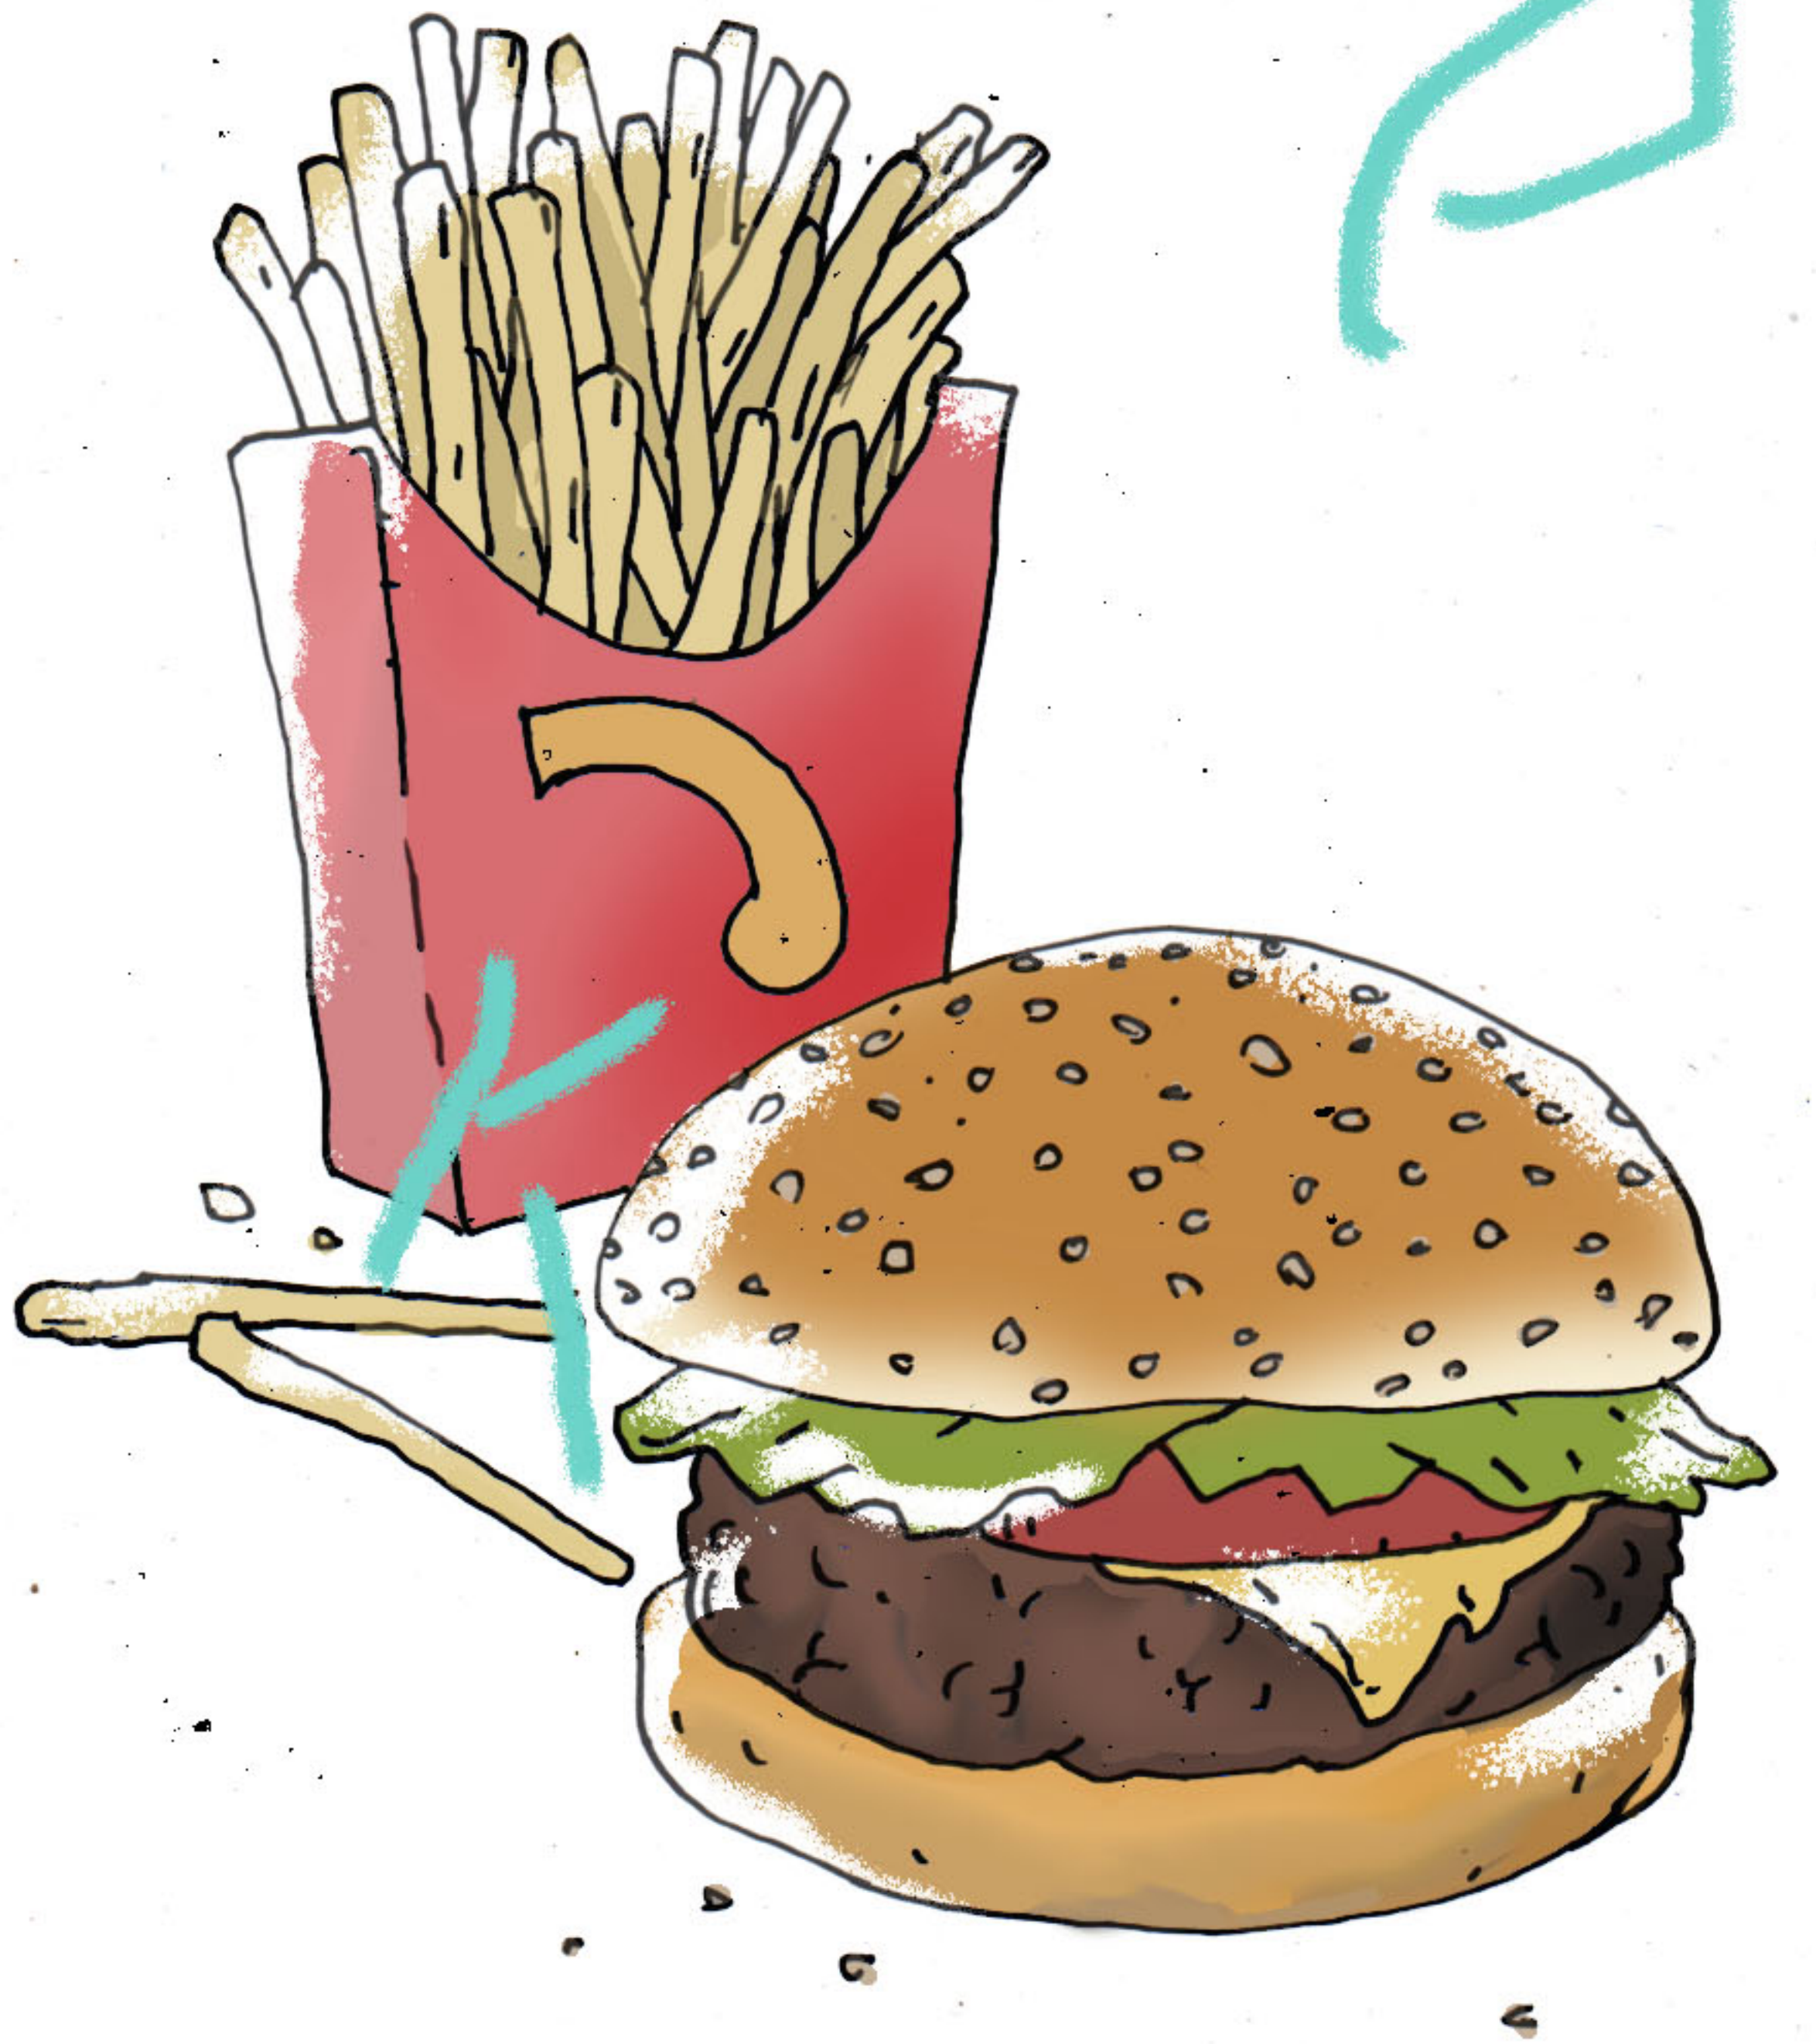


And he asked for a lot.

He liked donuts.

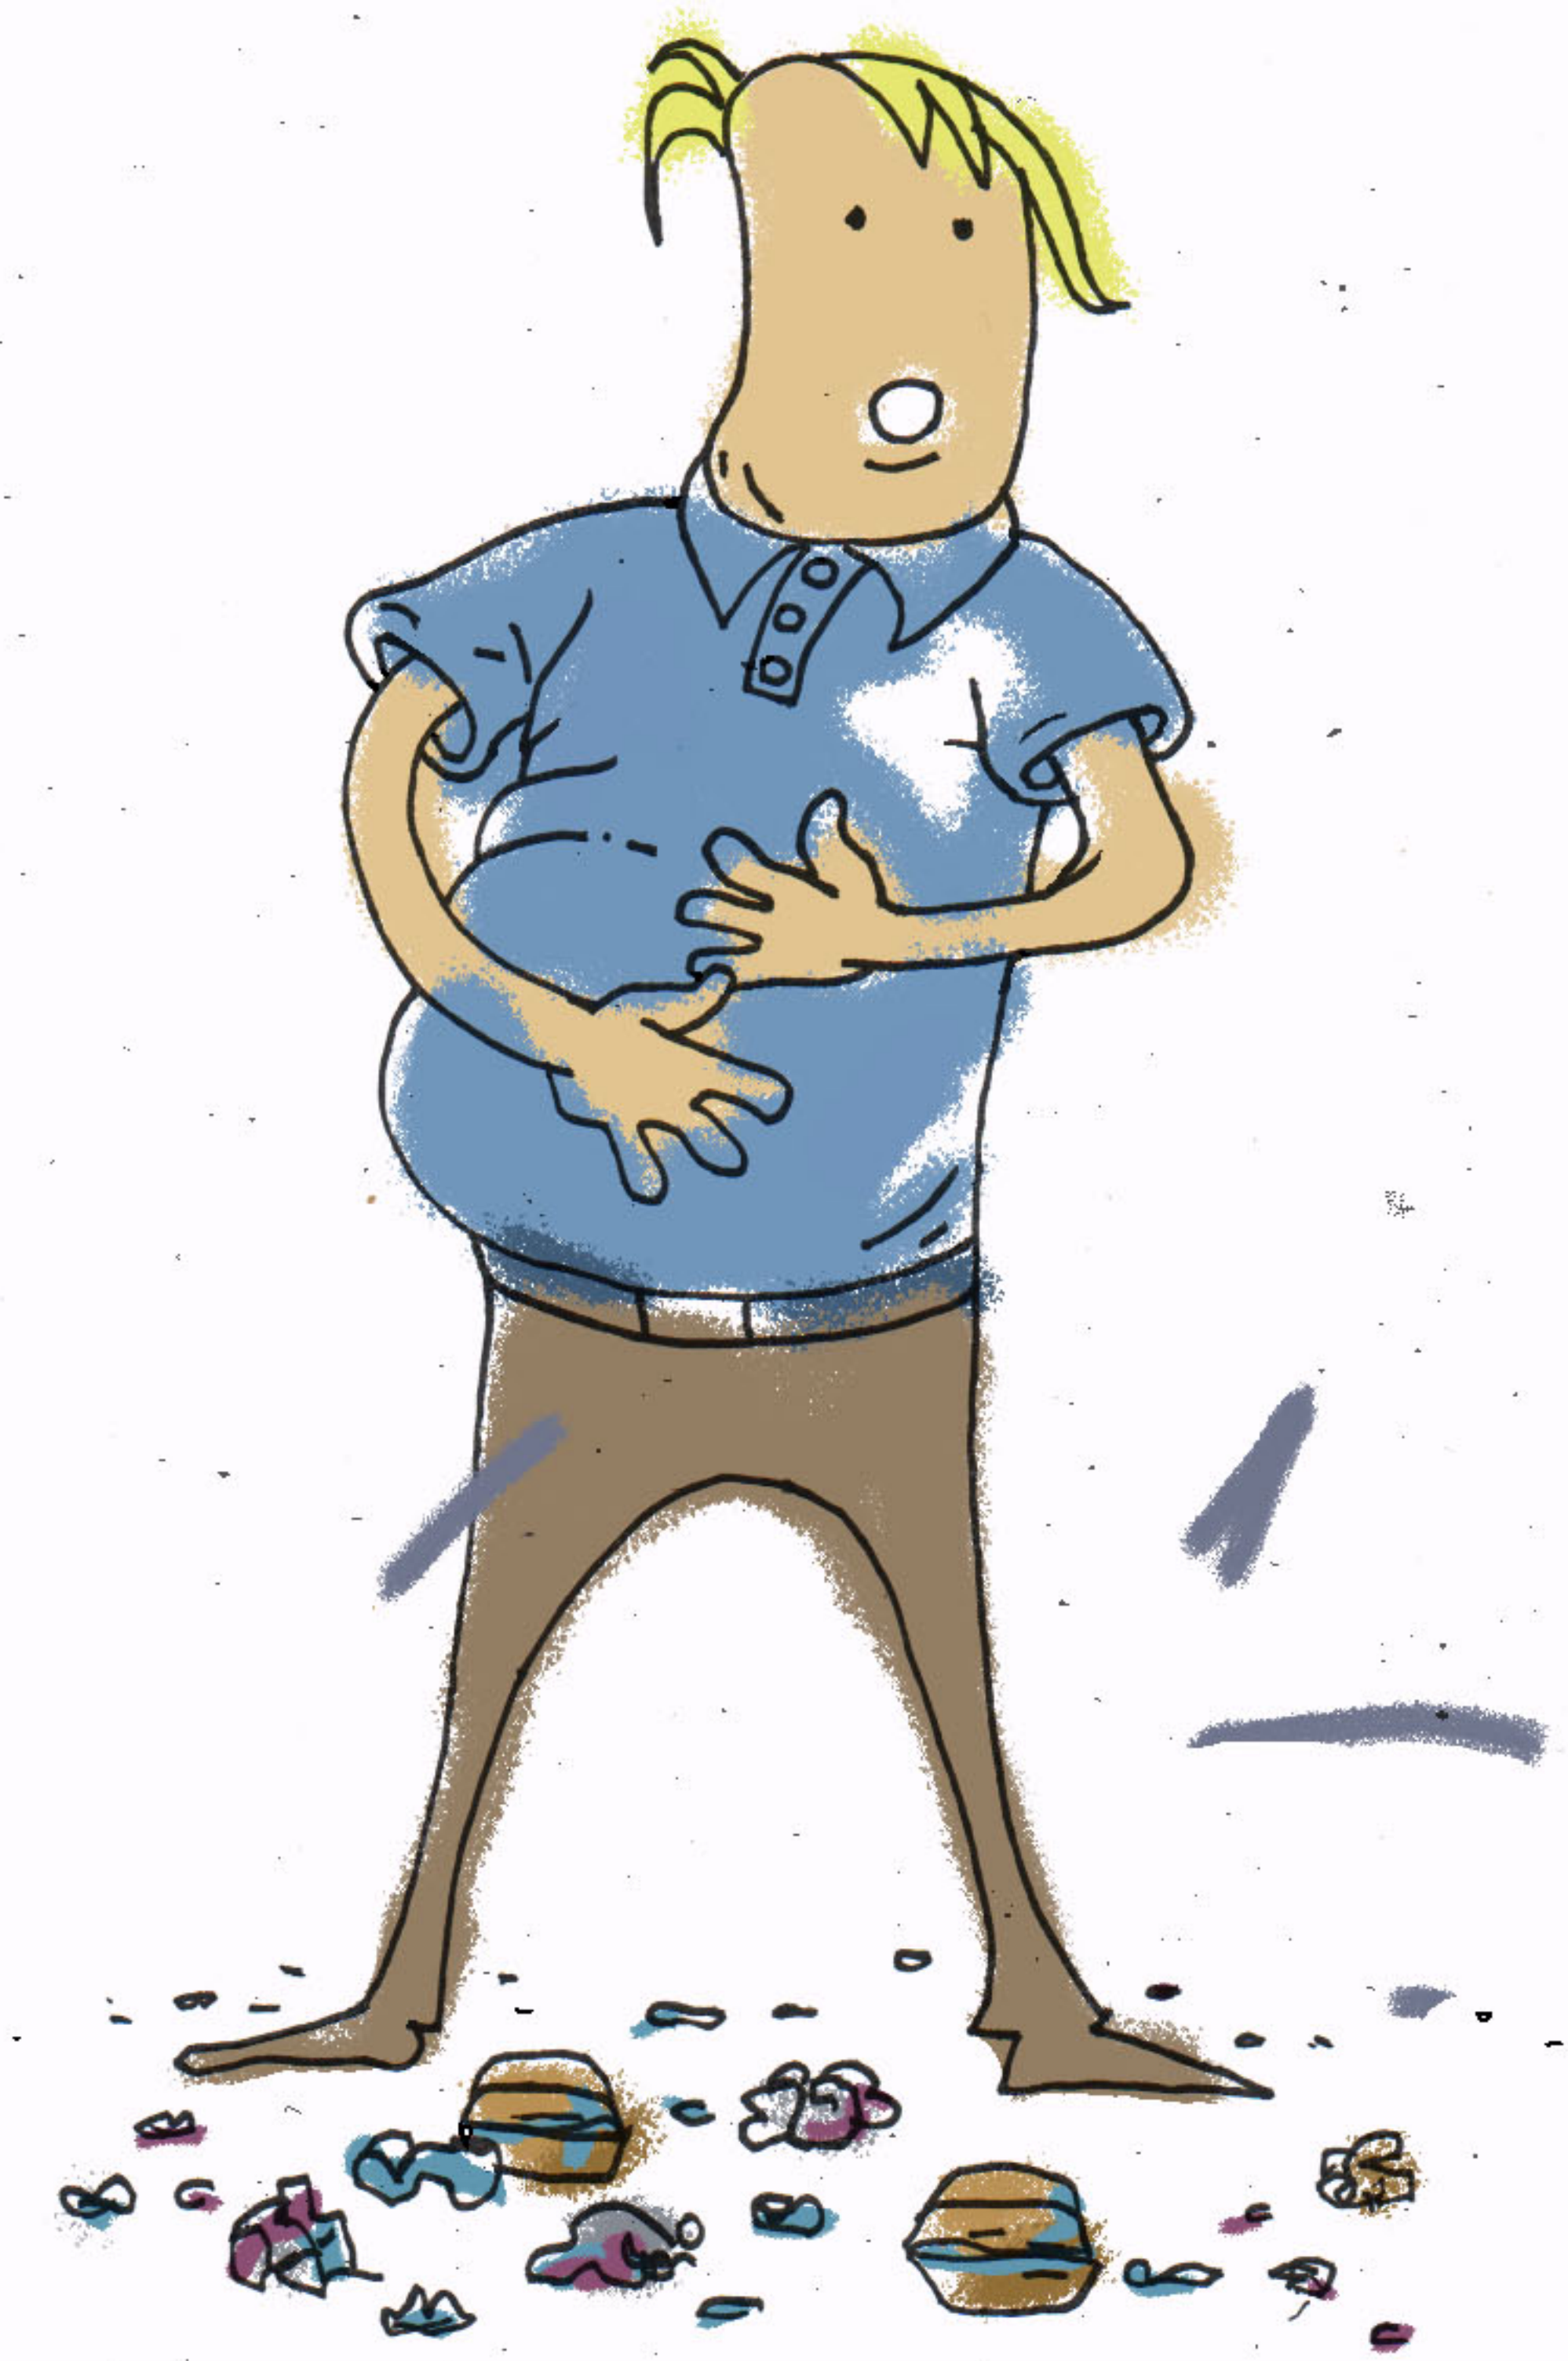


Especially the powdery ones.



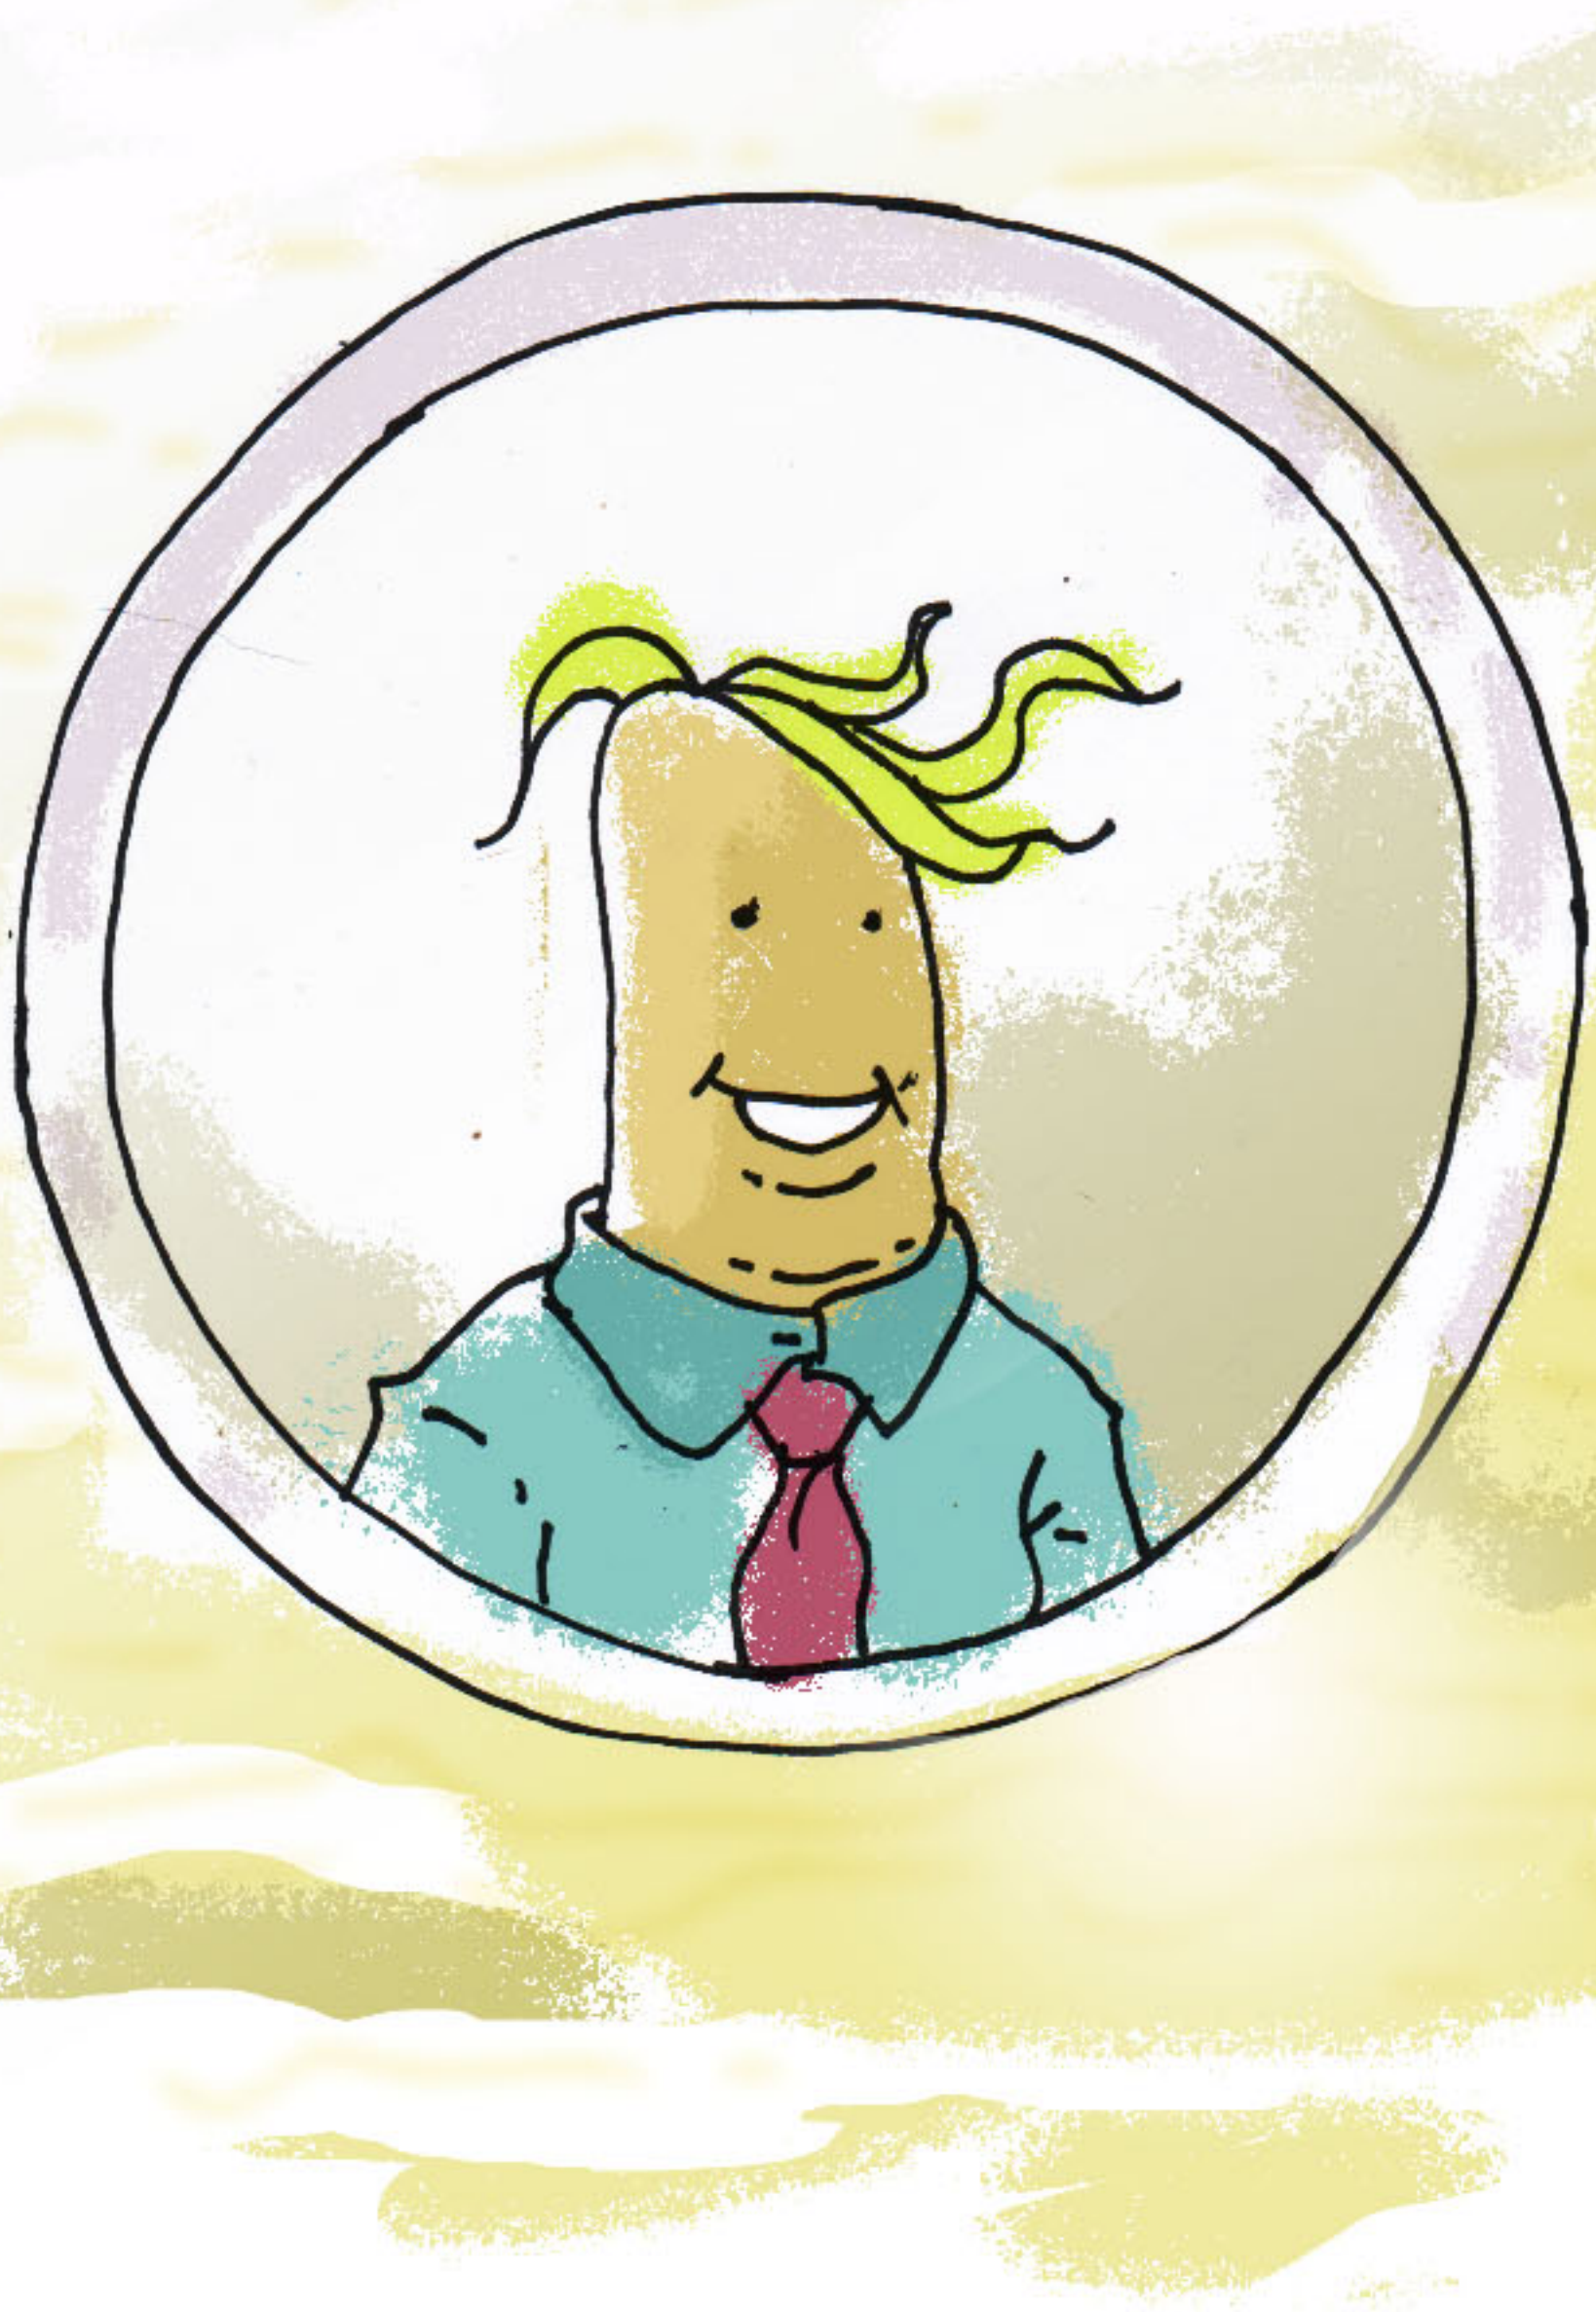
He loved hamburgers and french fries.

But he was never full.



He always felt a little hungry.

When he grew up, he bought cars and planes.



One of his planes was made of solid gold.

It couldn't fly so he kept it parked.

This way people could see how rich he was.

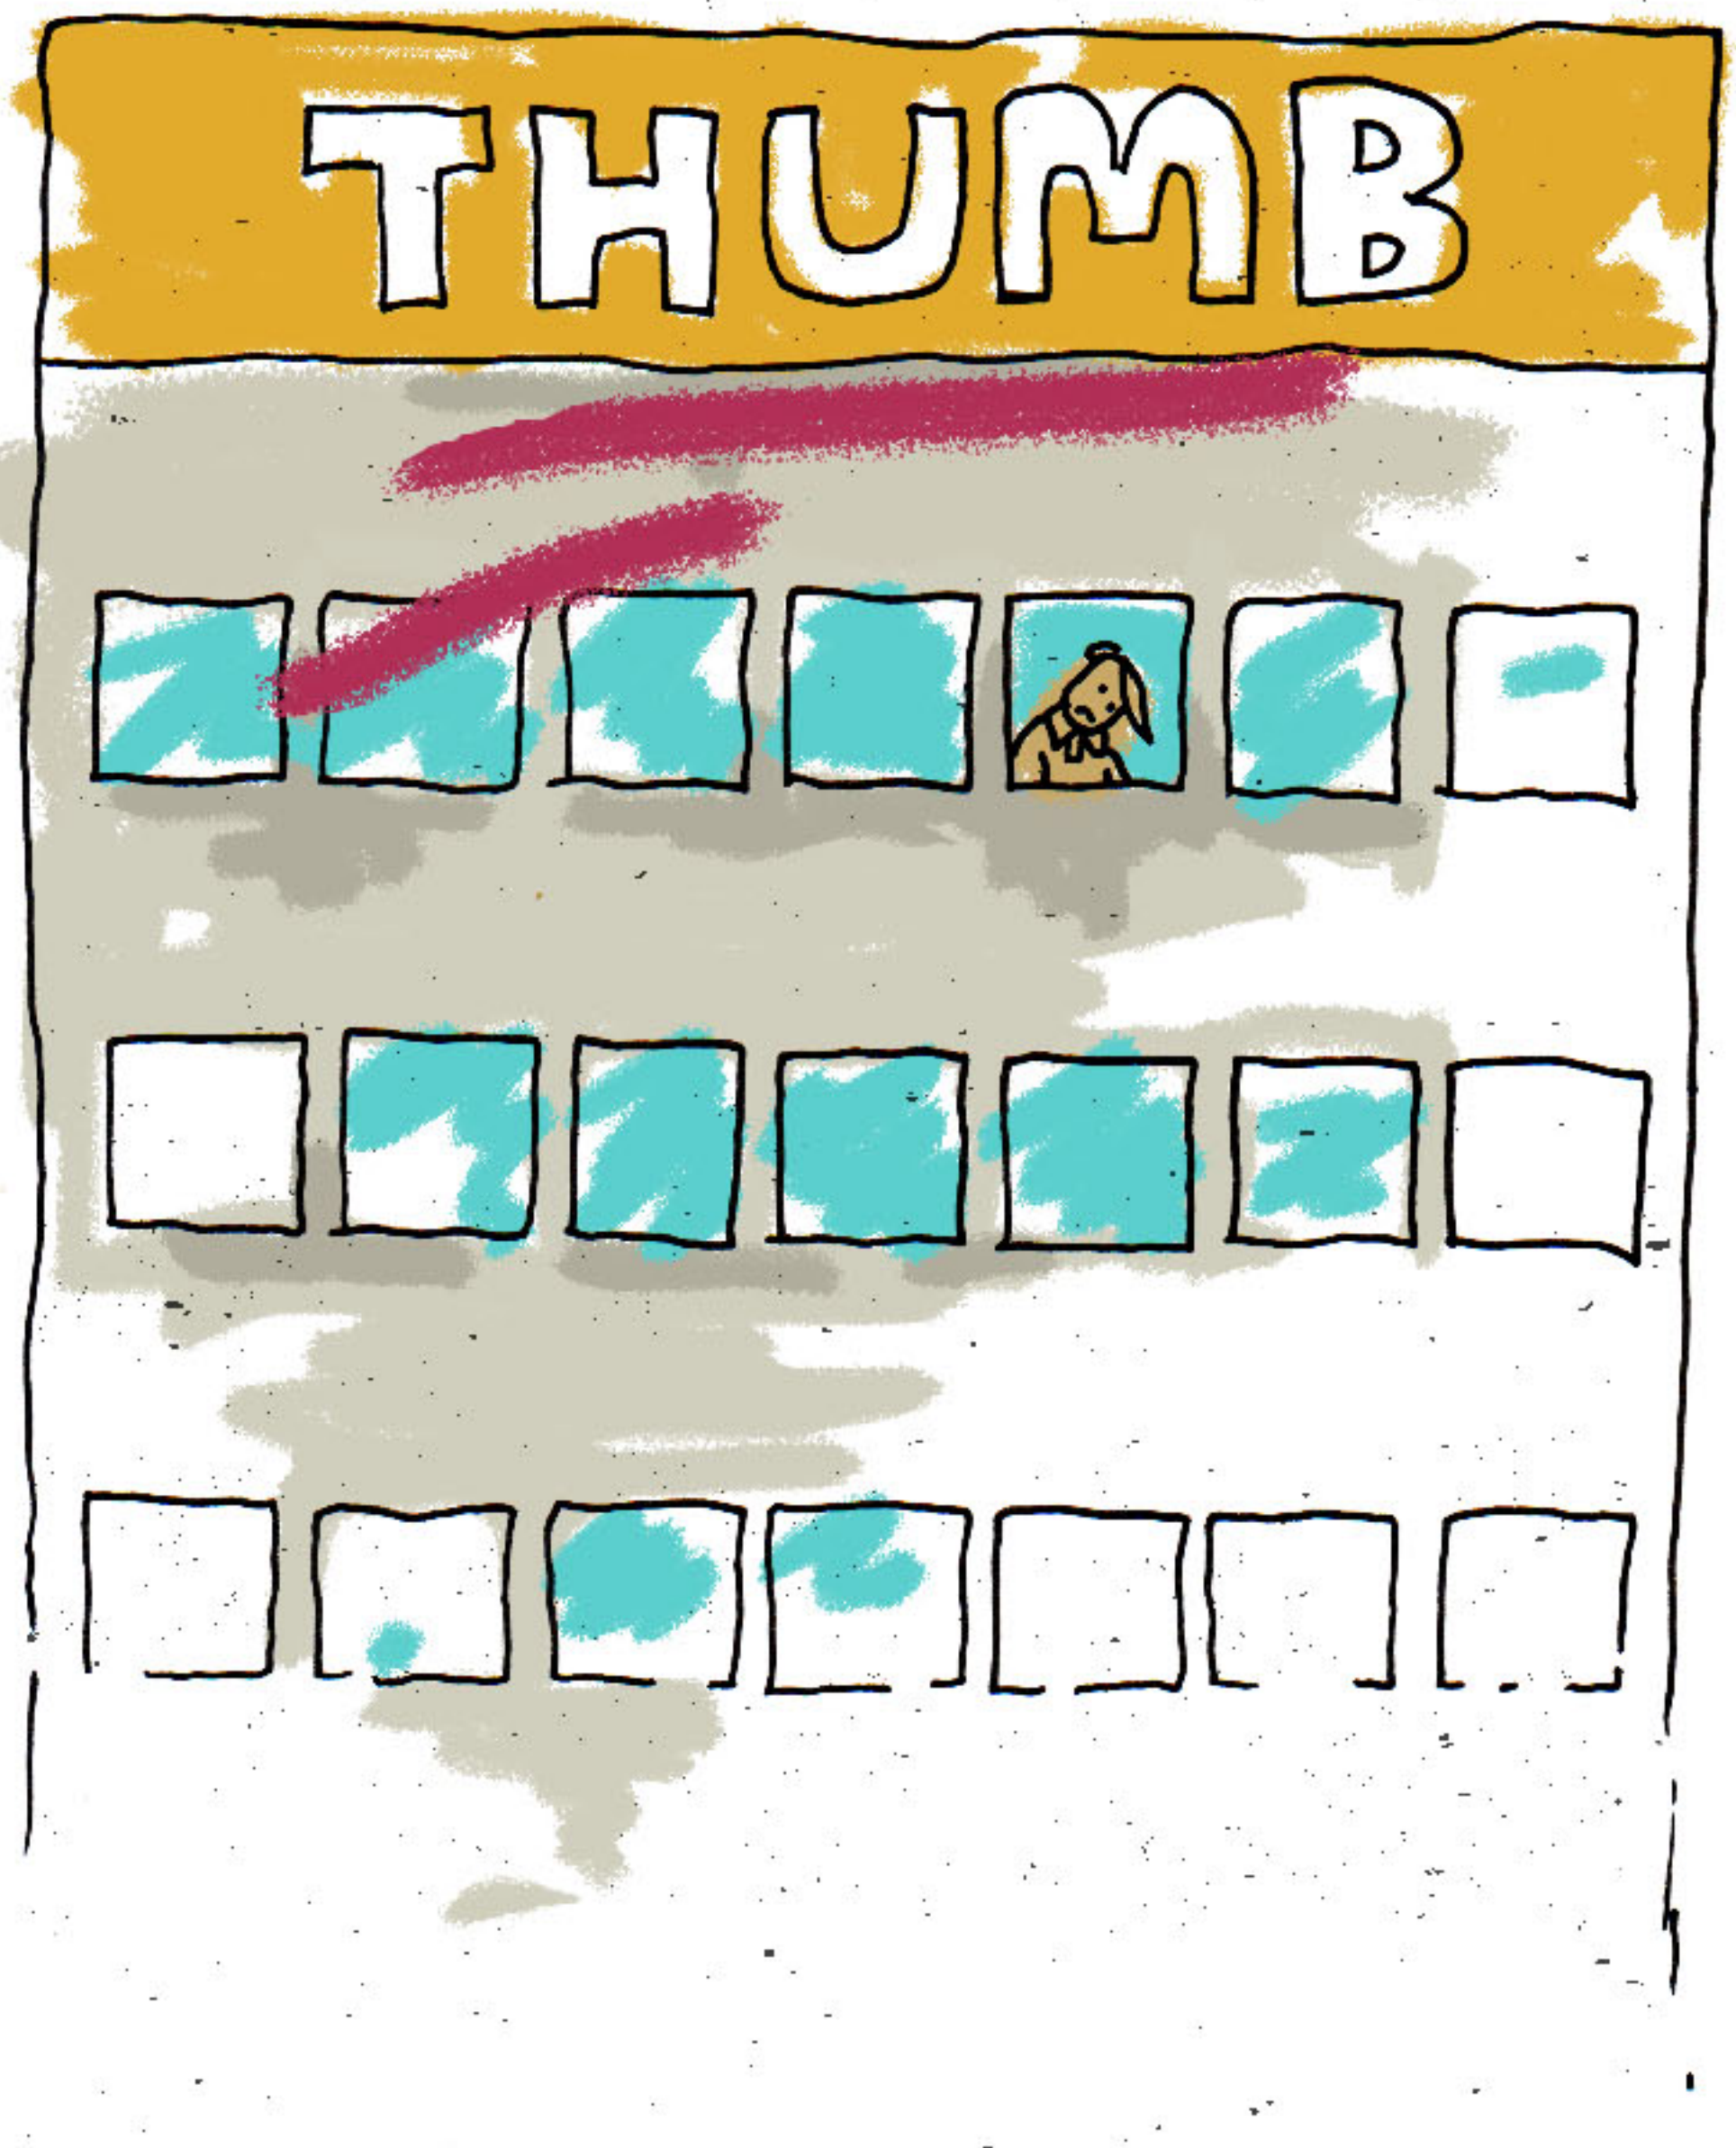
But he never felt rich enough.

He always wanted more.

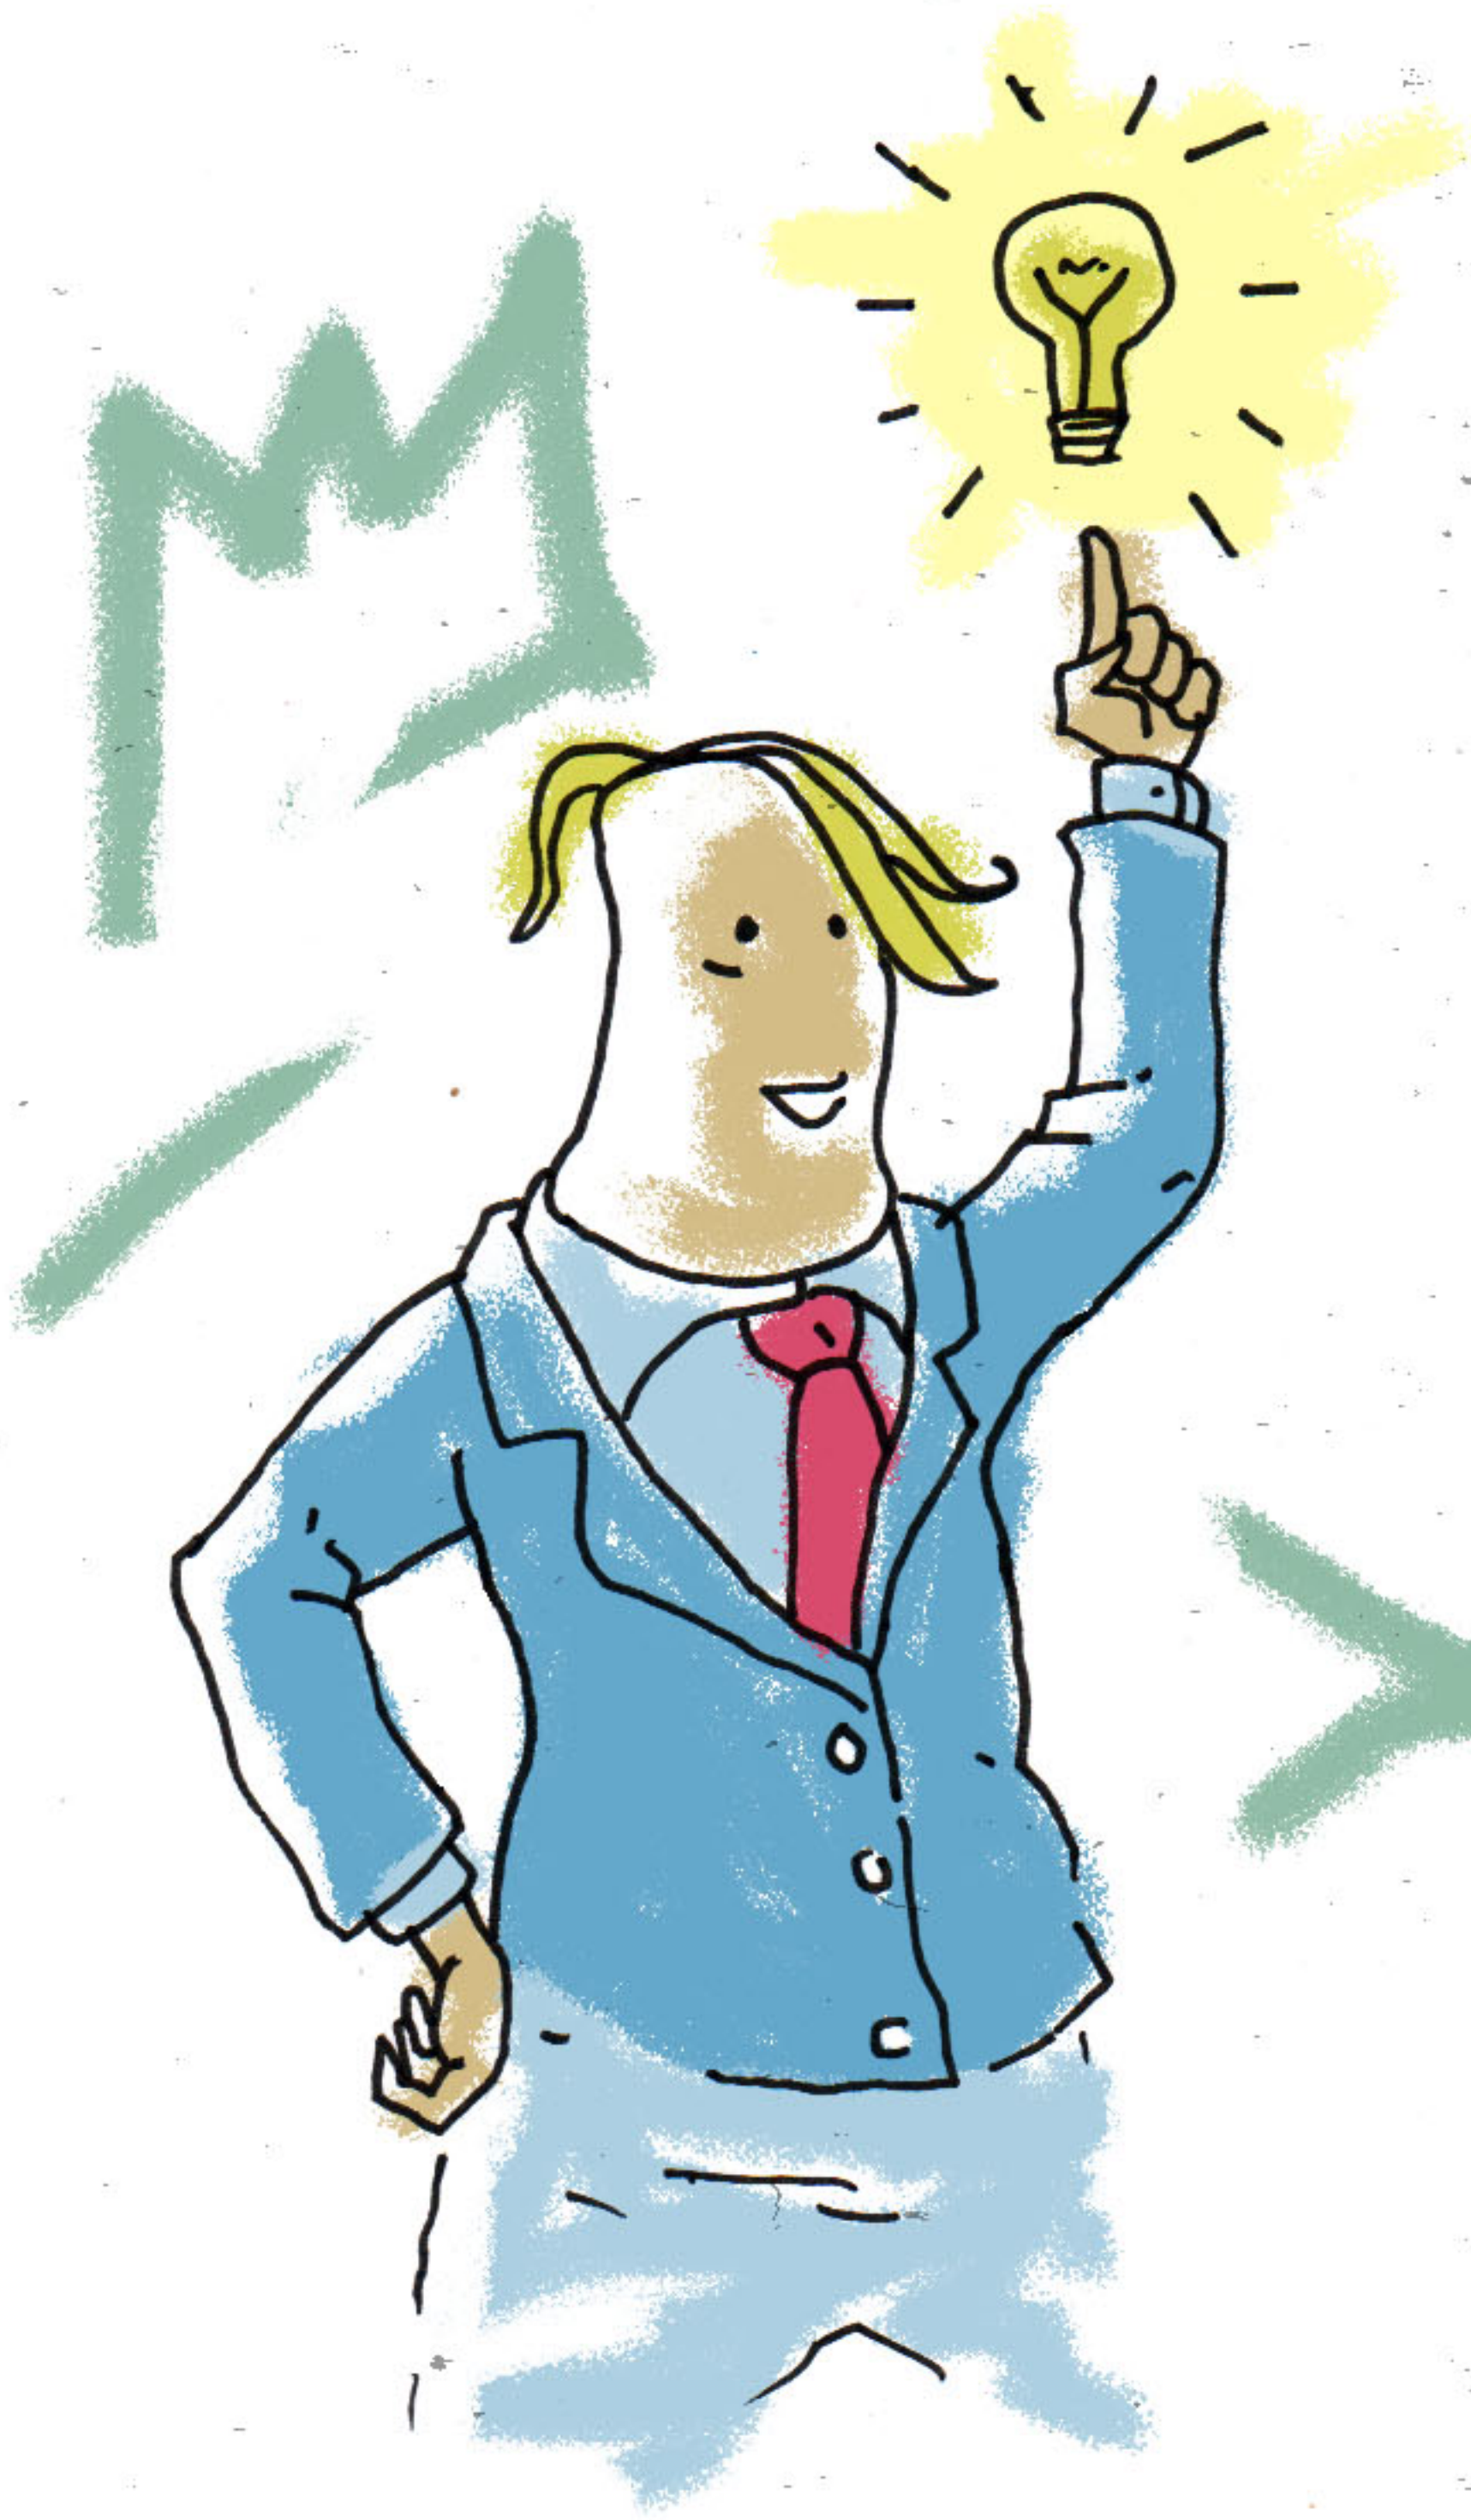
He put his name on large buildings.

Now people could see how important he is.

But he never felt very important.



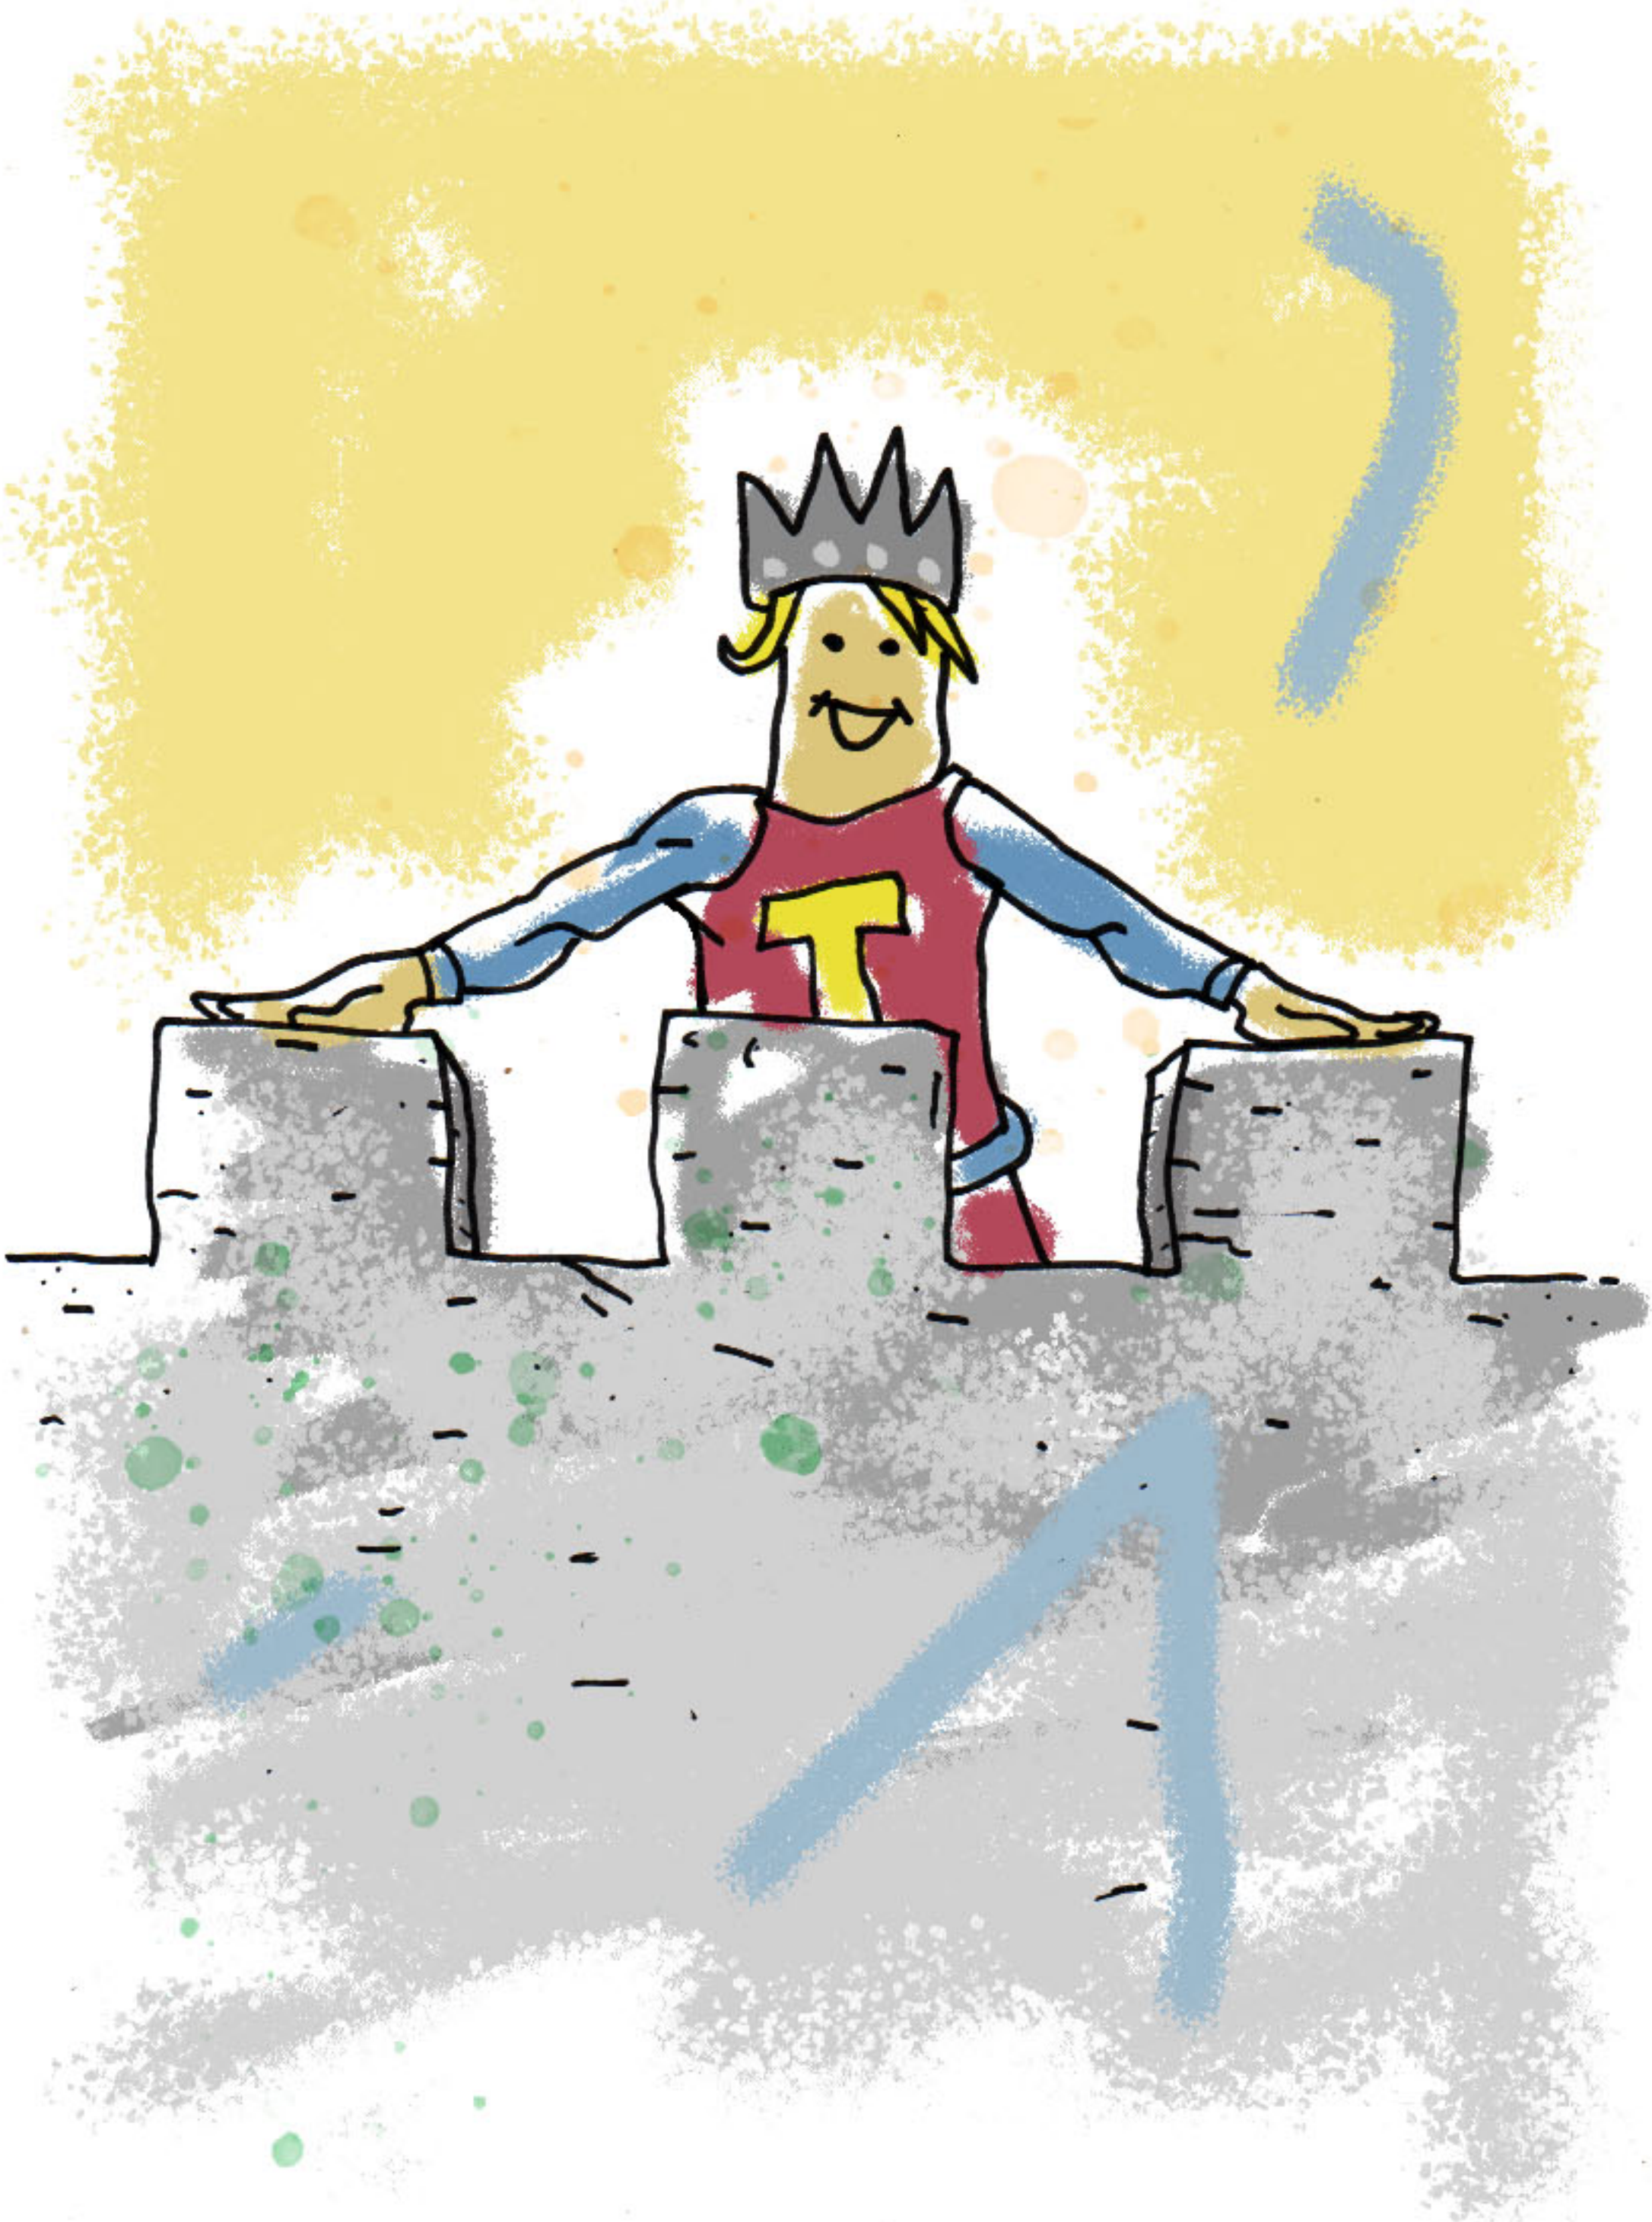
He felt very small inside.



One day he decided to be king.

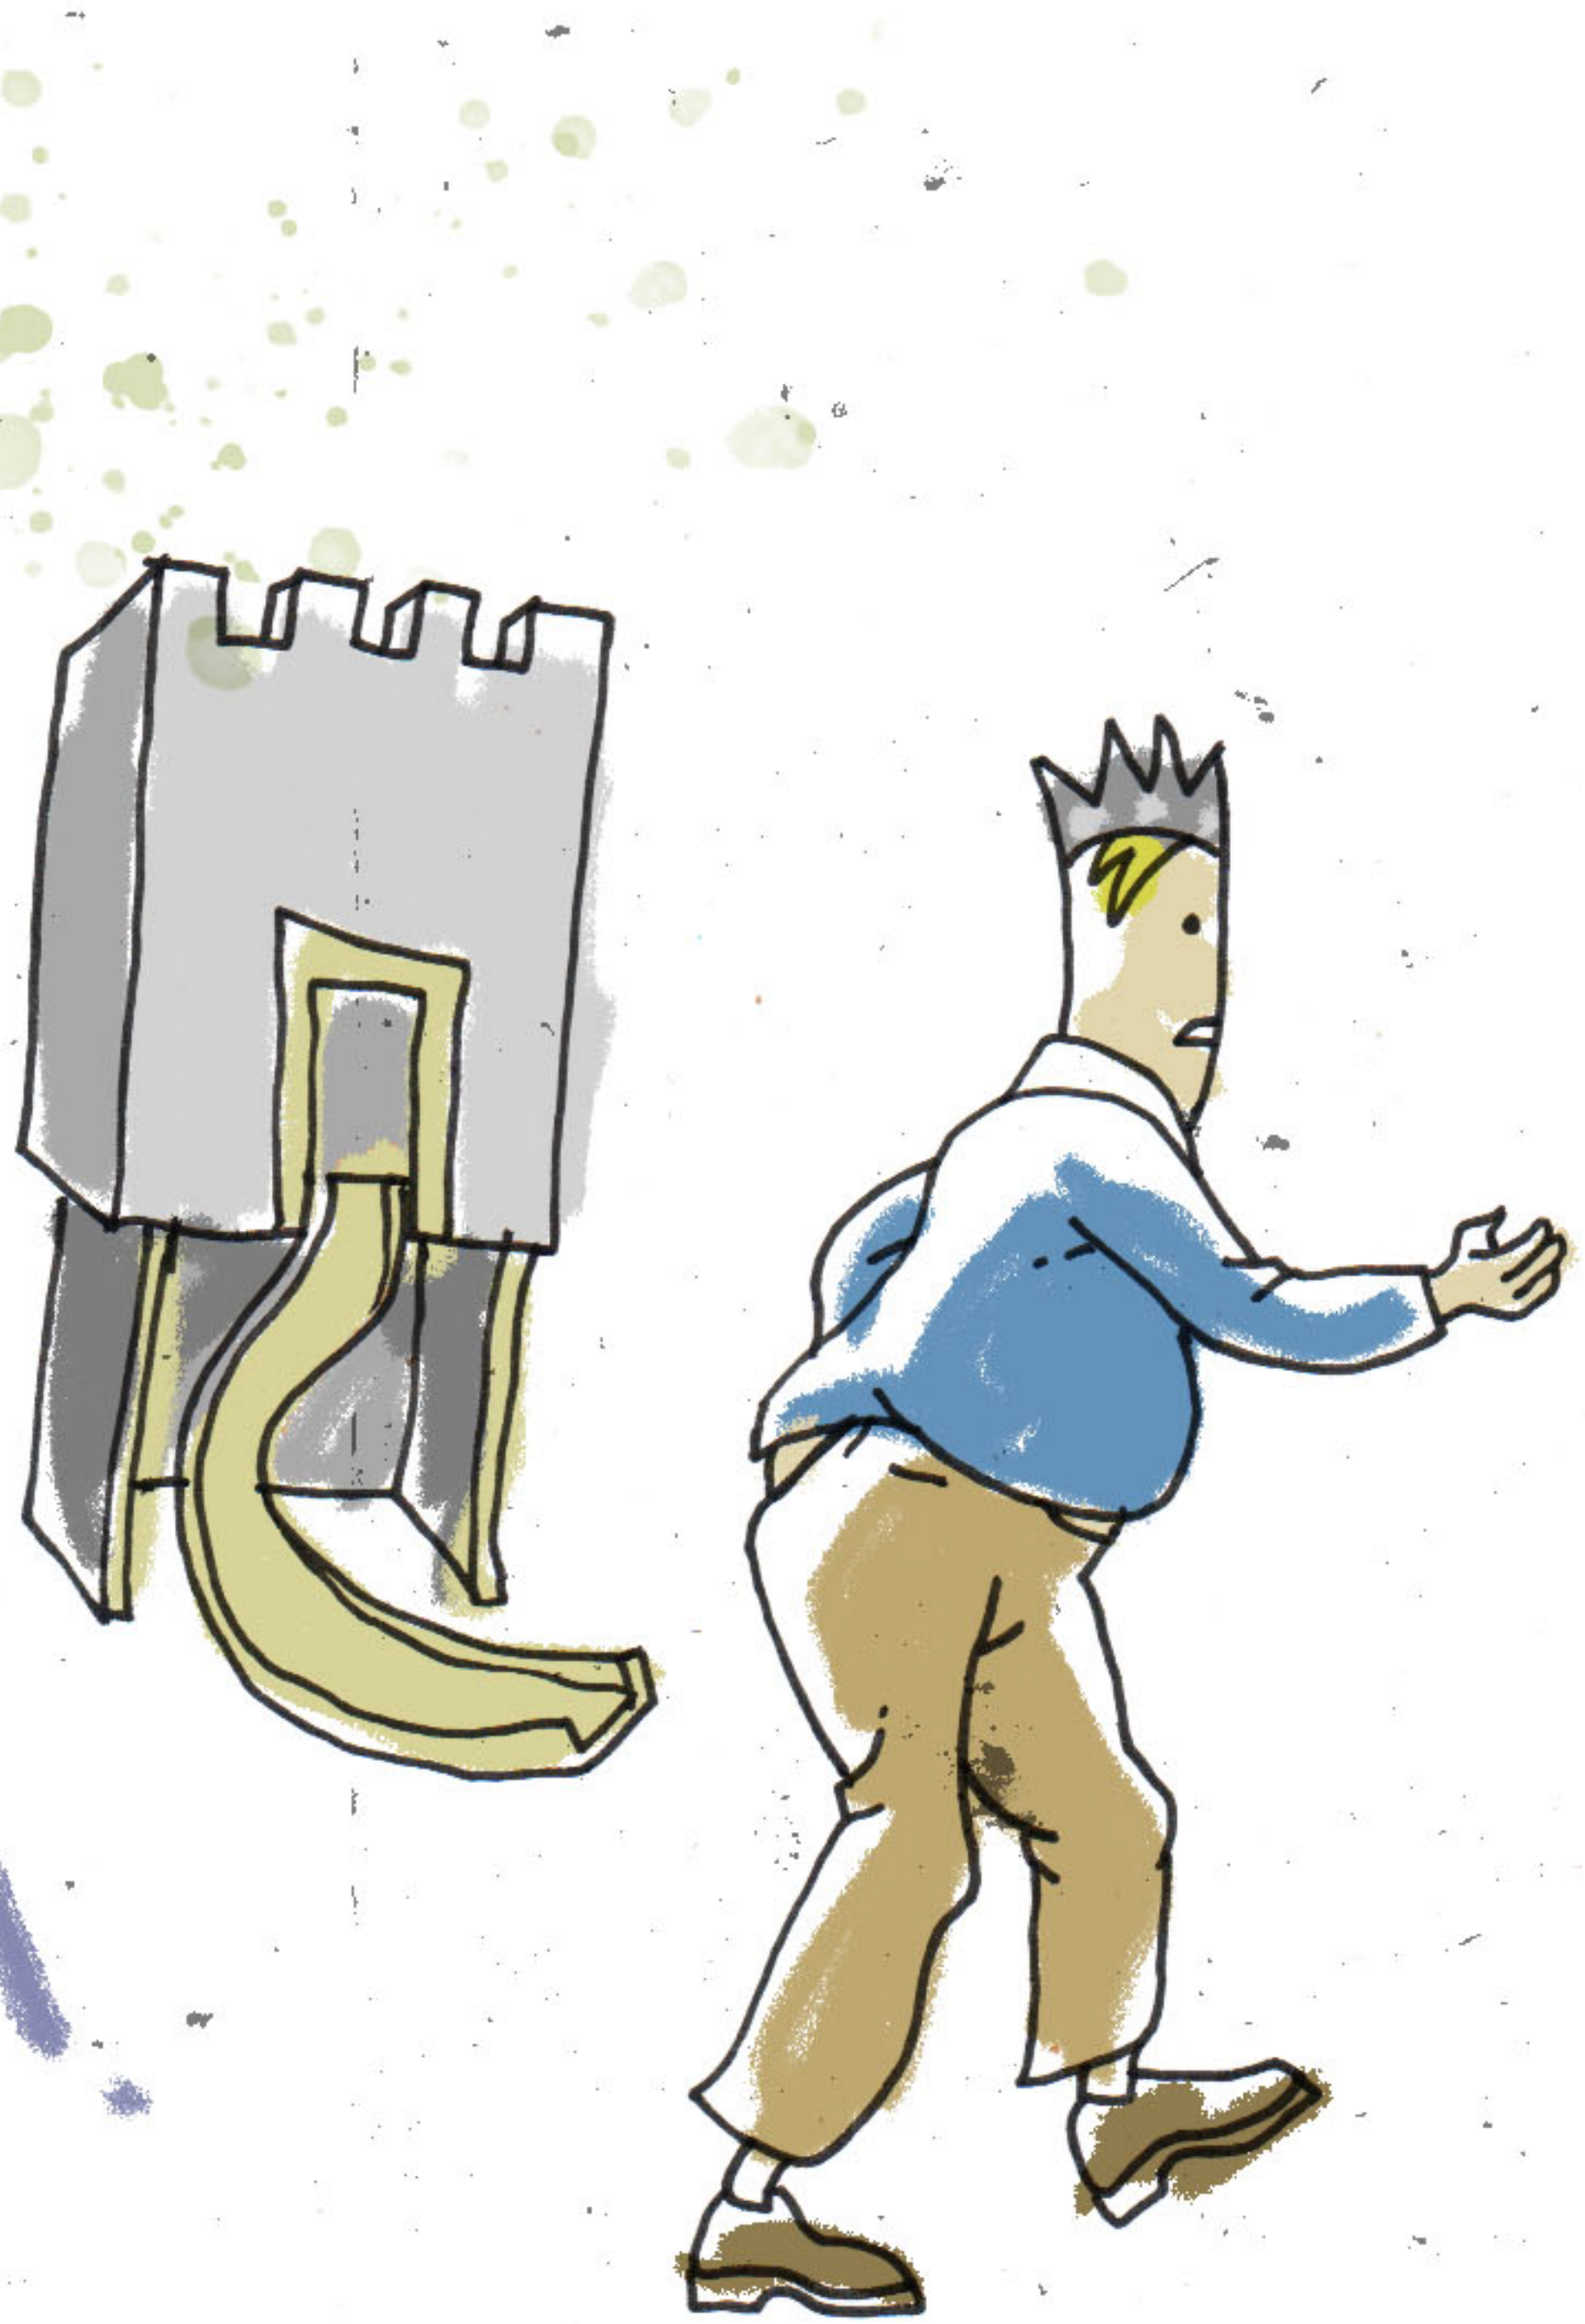
He did all he could to make that happen.

And sure enough, he became king.



He was the most powerful man in the kingdom.

But he didn't feel very powerful.



He felt weak inside.

He had everything.

But it wasn't enough.

He would always feel hungry, weak, and alone.

Nothing would change that.

THE END

Hey! Feel free to share this here digital book with your friends.

You can buy a physical copy of the book from amazon.com, amazon.ca, or amazon.co.uk.
